

W. Cambridge Leather
ENGLAND

Pouch Bag (A4)

@wcambridge leather

Recommended leather weight
Body- 1.6 - 2 mm

You can make this project easily with a knife, hole punch and rule!
This will fit on a belt upto 38mm

1. Print out your pattern on thick card
2. Choose your belt width
3. Scribe your template onto your leather
4. Cut out your leather
5. Punch your rivet holes
6. Bevel your edges and burnish them
7. Rivet your three leather pieces together sandwich your canvas bag between them

Voilà you have a pouch bag!
