PRINTING THE PATTERN

Set up your paper size to A4 and choose actual size in the printer settings

Alternatively you can use “letter” format which is approximately the same size and will not impact the size of the product significantly

©copyright www.dieselpunk.ro

Print all the patterns.

The first page is a measuring reference and you can use a ruler to make sure it matches the square. That means the rest of the pattern will print on the right size

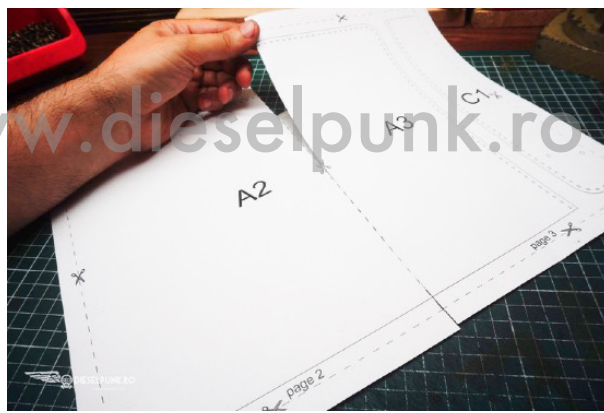

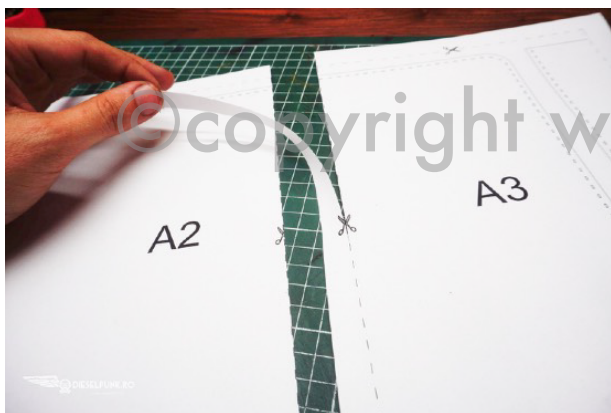

©copyright www.dieselpunk.ro

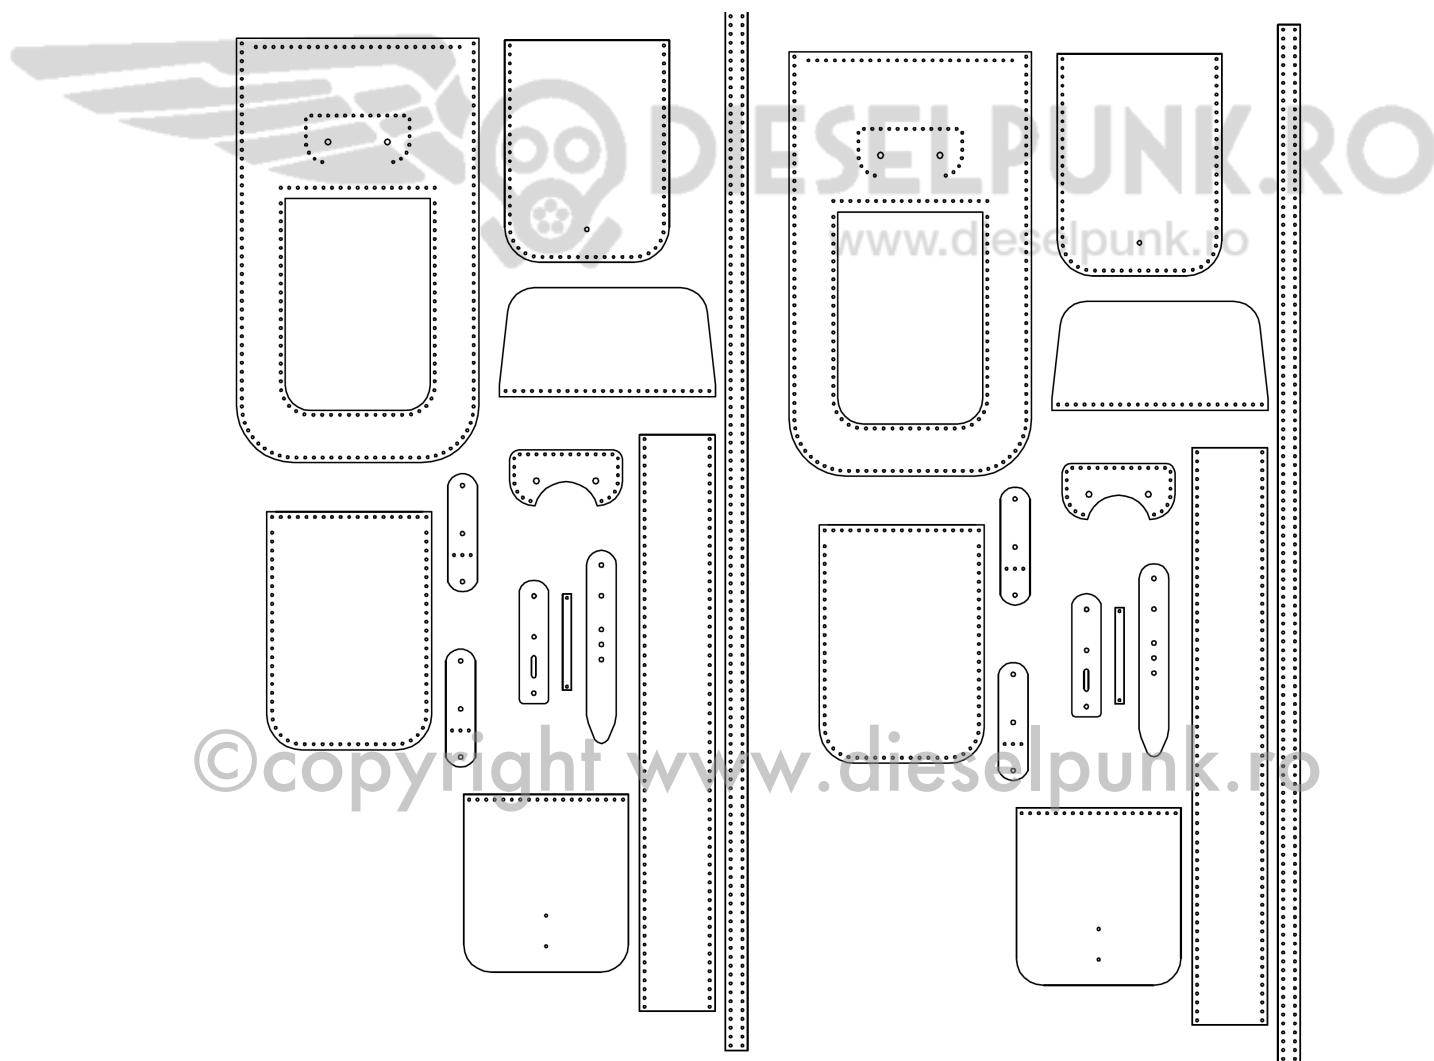

Take note that some of the larger parts are spread over two or even three pages.

Use the second page of the pattern as an assembly guide

Cut out the edges and use only the inside of the page

Once you are done you should have all the pieces showed below

In order to further help with your build, we filmed the entire process from the start to finish.

Please access your instructional video here:
