
STEAMPUNK GLOVES

Assembly instructions

Difficulty level:	beginner
Completion Time	2 - 5 hours

NECESSARY TOOLS

B&W Printer

Scissors or a cutter

Hole Puncher (We recommend 2.5 mm sized holes for this build)

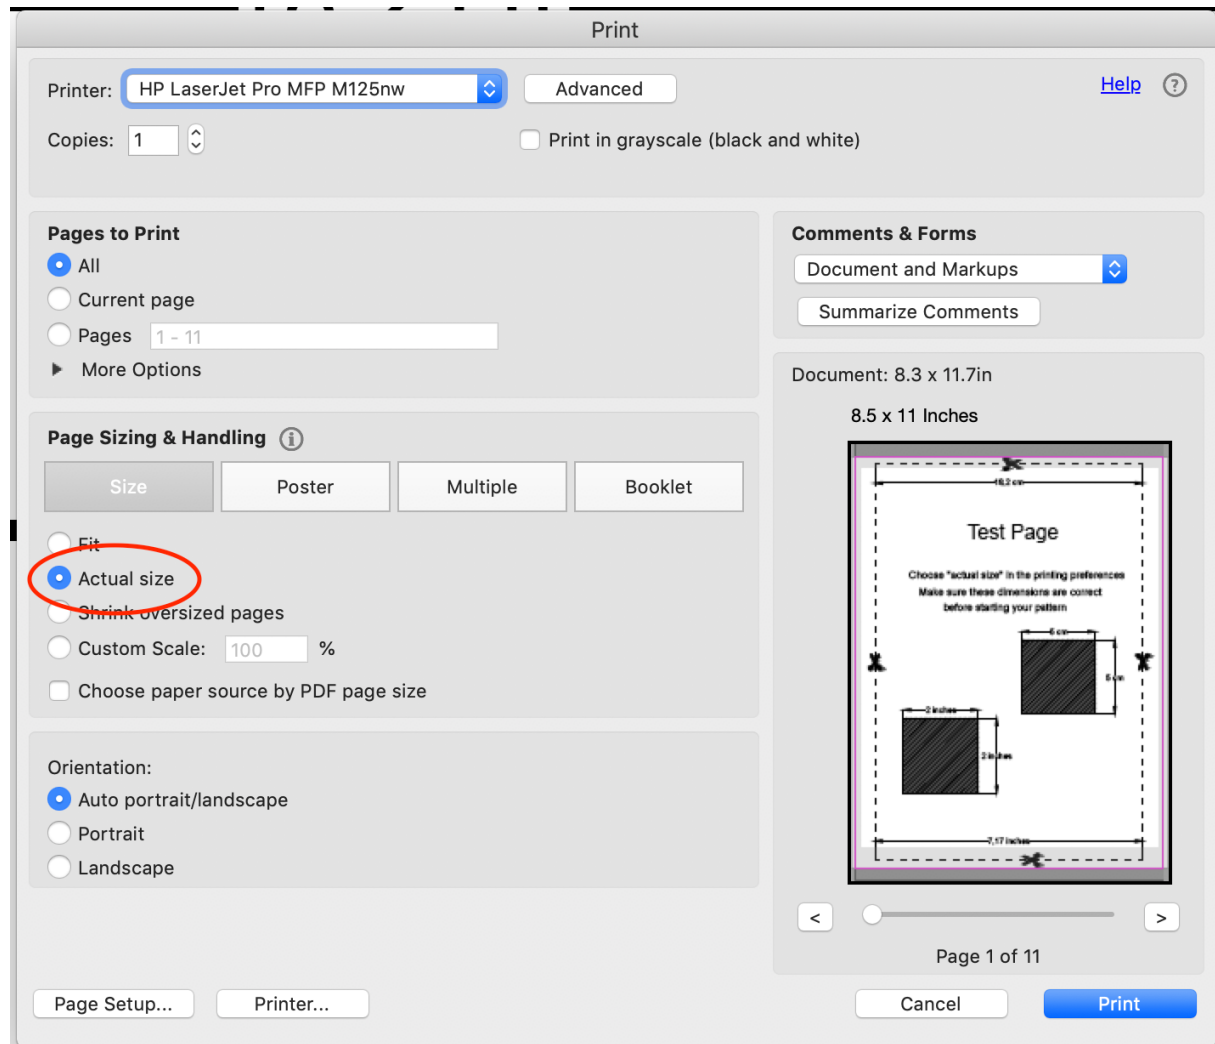

Approx 1.5 square feet of leather. (We recommend 5oz leather for this build)

24 x 20 mm buckles rings and about 30-35 rivets

PRINTING THE PATTERN

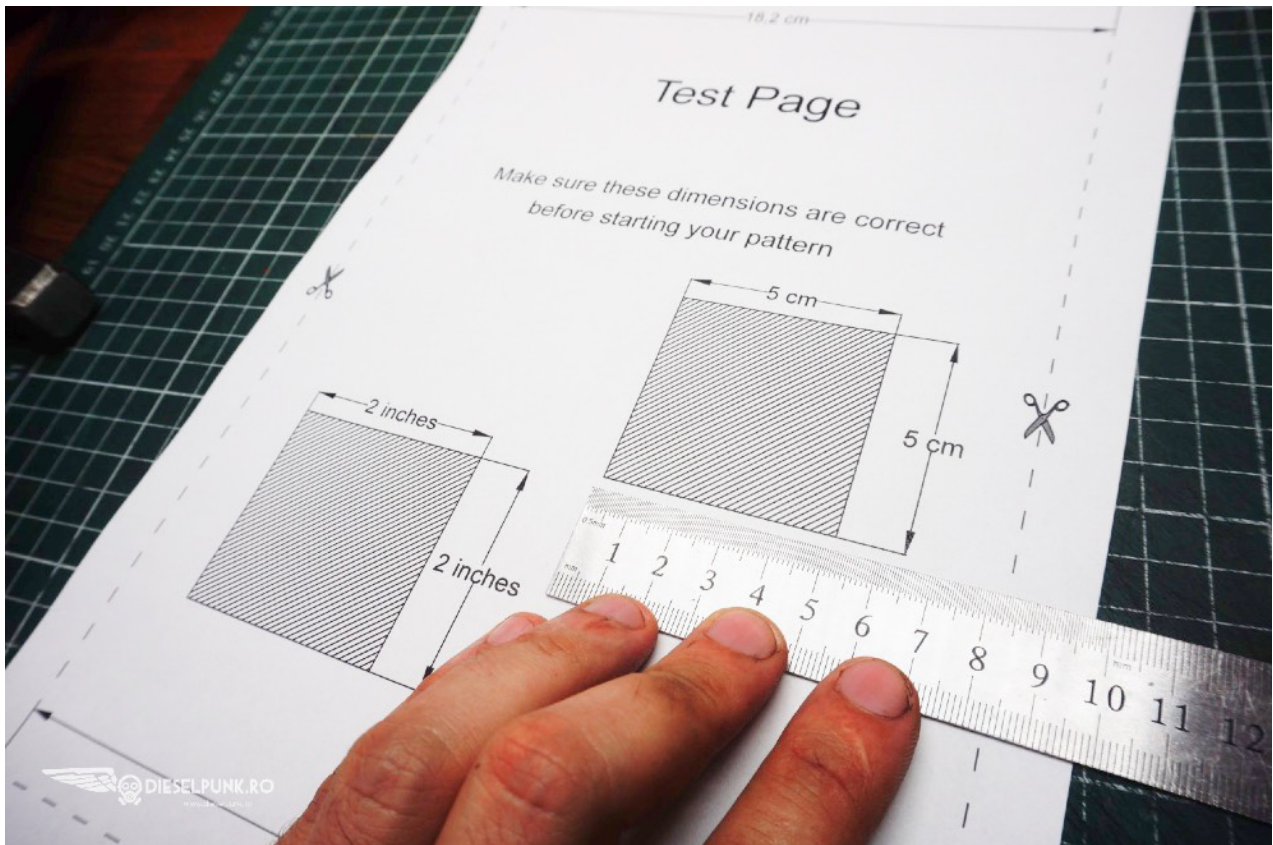

Set up your paper size to A4 and choose actual size in the printer settings

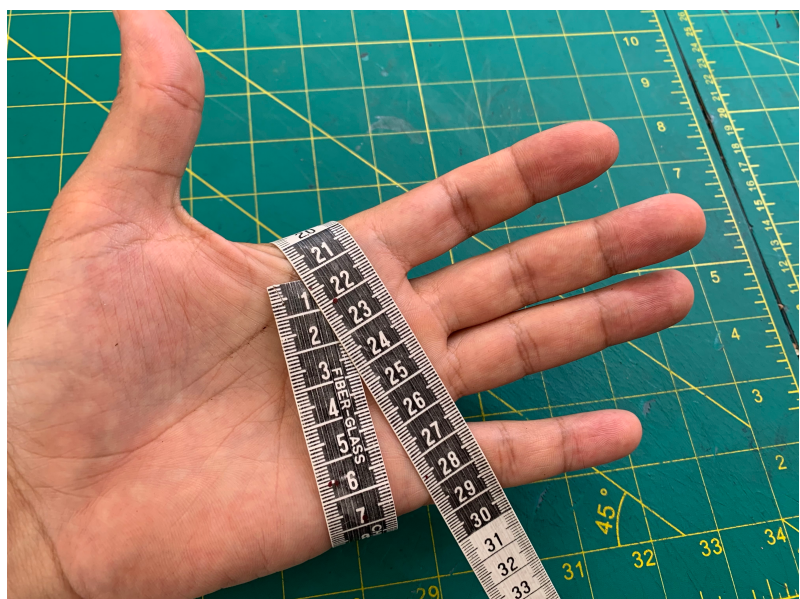

Alternatively you can use “letter” format which is approximately the same size and will not impact the size of the product significantly

Print all the patterns.

The first page is a measuring reference and you can use a ruler to make sure it matches the square. That means the rest of the pattern will print on the right size

The pattern comes in three sizes, please use a soft tape to find out your hand size as seen in the picture to the right

In order to further help with your build, we filmed the entire process from the start to finish.
Please access your instructional video here:

Would love to see what you did, so please share or leave a review on Etsy.

Stuck and need help? go ahead and send us a message, someone is always around to give you a hand

Thank you for constructing your gloves with our pattern

To further help all our clients we created this FaceBook group for everyone to share ideas and stay up to date with the latest patterns available.
