A few 7 mm rivets

PRINTING THE PATTERN

Set up your paper size to A4 and choose actual size in the printer settings

Alternatively you can use "letter" format which is approximately the same size and will not impact the size of the product significantly

Print all the patterns. Take note that most of the pieces are spread on multiple pages. Use the assembly diagram on the second page to make sure you paste them correctly. The tutorial video will show you exactly how to combine the files
