**DIDI
BACKPACK**

INTRODUCTION

- This package contains a pattern and a detailed instructional video to help you make a leather backpack closed with zipper and lined with leather.
- The advantage of lining is that you obtain a sturdy yet lightweight backpack that will keep its shape over the years.
- You should leave a margin of 0.15-0.2" (4-5 mm) around the pattern line of the lined bag because after lining, you will have to recut on the pattern lines for obtaining a sharp edge.
- First you should cut the longest piece: the gusset and the shoulder strap. The longest piece is the gusset: 37.8/3.2" (96/8 cm)
- You should use a good quality metal zipper like YKK.
- If you prefer not to line the leather, you can use a 6-7 oz leather.
- If you need our assistance, please contact us on [Facebook Group](#)
- Enjoy!
