
LEATHER HIP BAG

Assembly instructions

Difficulty level:	Intermediate
Completion Time	6 - 10 hours

NECESSARY TOOLS

B&W Printer

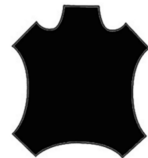

Scissors or a cutter

Hole Puncher

Approx 20 square feet of leather

Thread and needles

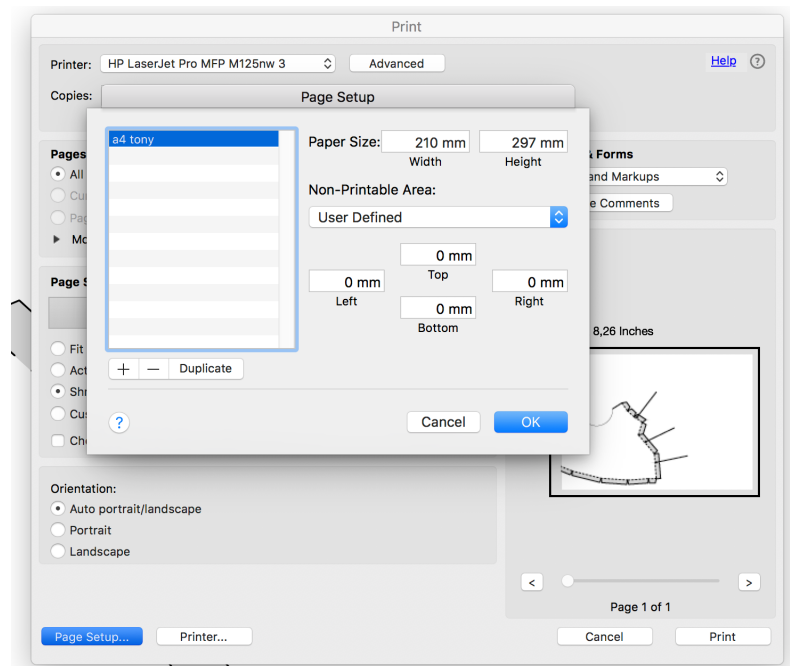

3 x 20 mm Buckles and a few rivets

PRINTING THE PATTERN

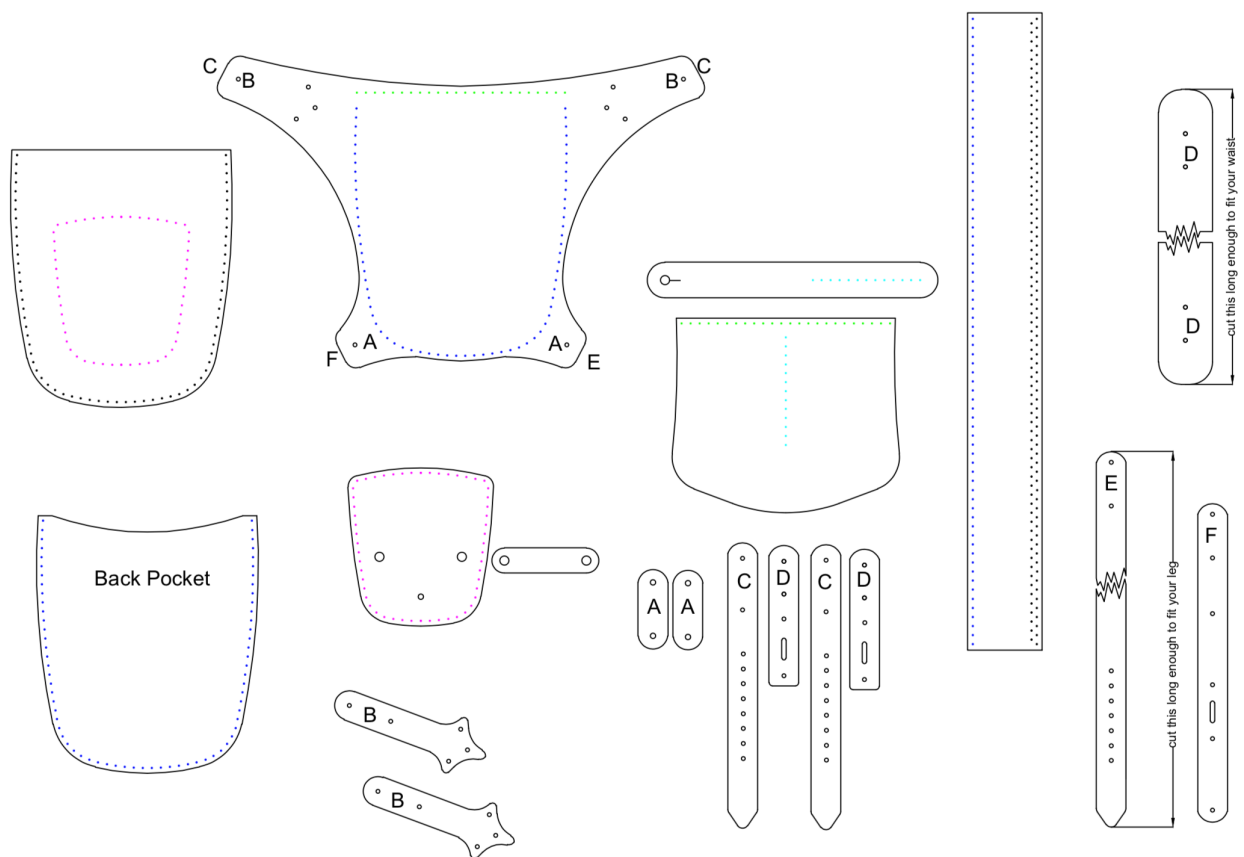

Set up your printer to A4 paper with no margins on landscape mode.

Alternatively you can use “letter” format which is approximately the same size and will not impact the size of the product significantly

Print all the patterns. Some of them are spread over a few pages so I numbered the pages so it is clear how they should be placed and pasted together.

After you are done you should have every piece as shown in the picture shown here:

We have used color coded stitching holes so your assembly is even easier. Also the letters will help you attach the smaller pieces in the correct places

In order to further help with your build, we filmed the entire process from the start to finish.
Please access your instructional video here:

<https://youtu.be/0inz0M0550U>

Would love to see what you did, so please share or leave a review on Etsy.

Stuck and need help? go ahead and send us a message, someone is always around to give you a hand

Thank you for constructing your bag with our patterns

To further help all our clients we created this FaceBook group for everyone to share ideas and stay up to date with the latest patterns available. Please follow the link below to join.
