
LEATHER TOTE BAG

Assembly instructions

Difficulty level:	intermediate
Completion Time	10 - 12 hours

NECESSARY TOOLS

B&W Printer

Scissors or a cutter

4 Prong Diamond Puncher spaced at 6 mm

Approx 5.5 square feet of leather for the small bag and 10 square feet for the large bag. (We recommend 5-6 oz veg tan leather for this build)

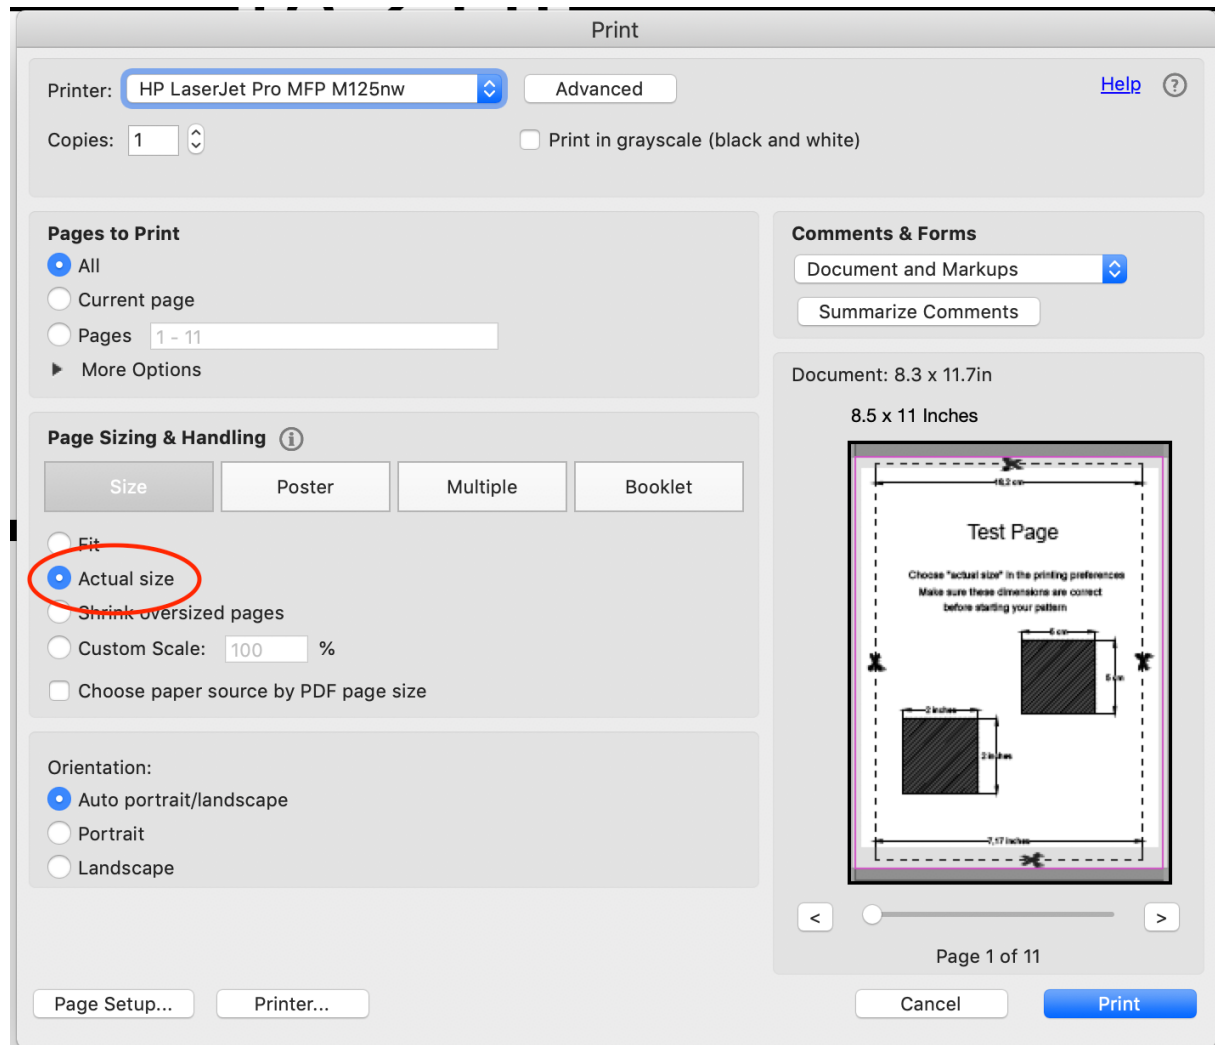

Thread and needles (We recommend 1 mm waxed thread for this build)

16 x 7 mm rivets

PRINTING THE PATTERN

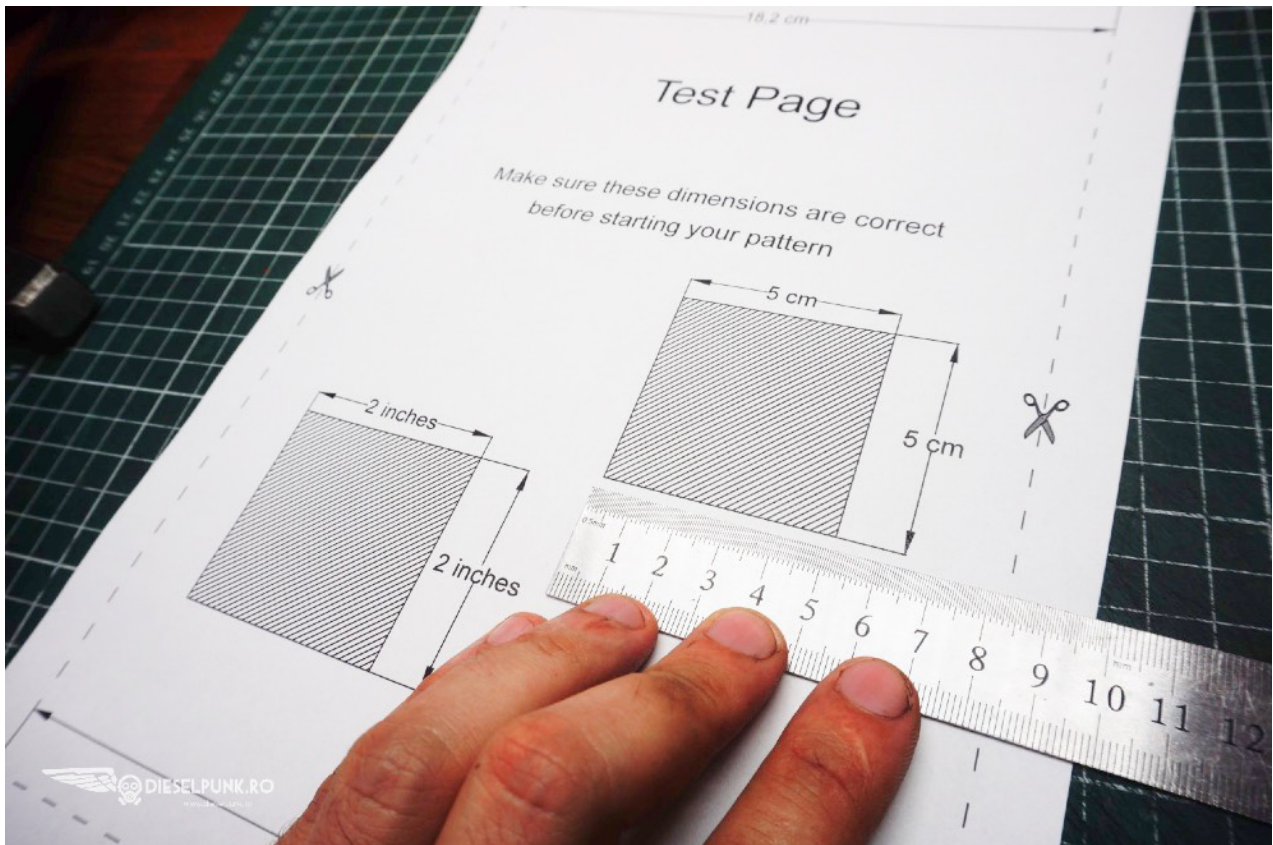

Set up your paper size to A4 and choose actual size in the printer settings

Alternatively you can use "letter" format which is approximately the same size and will not impact the size of the product significantly

Print all the patterns.

The first page is a measuring reference and you can use a ruler to make sure it matches the square. That means the rest of the pattern will print on the right size

In order to further help with your build, we filmed the entire process from the start to finish.

Please access your instructional video here:
