
CROSS BODY BACKPACK

Assembly instructions

Difficulty level:	Advanced
Completion Time	12 - 14 hours

NECESSARY TOOLS

B&W Printer

Scissors or a cutter

Hole Puncher (We recommend 1.8 - 2 mm sized holes)

Approx 13 square feet of leather. (We recommend 6 oz leather)

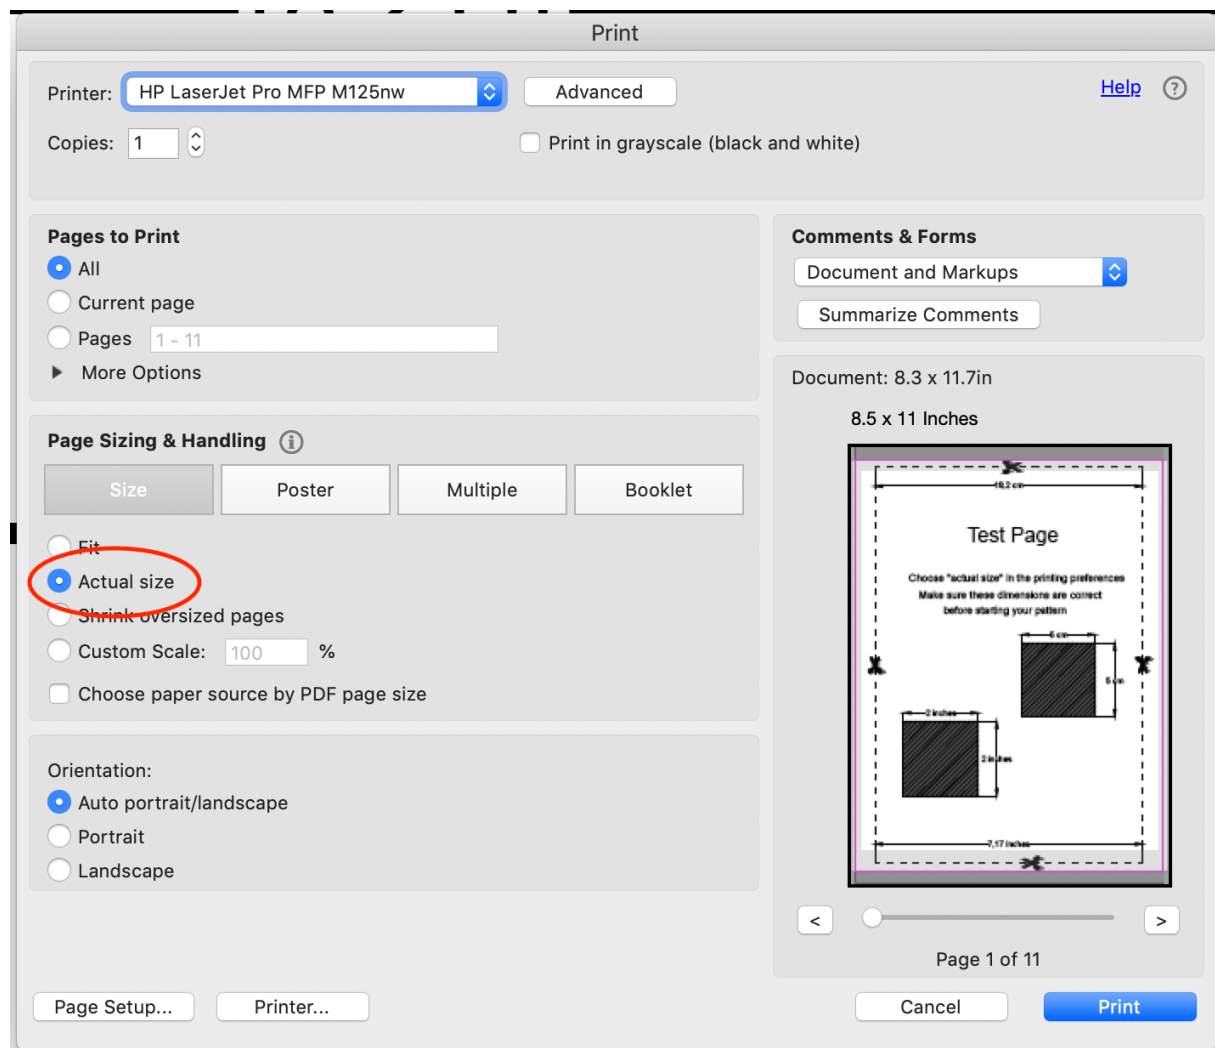

Thread and needles (We recommend 1.2 mm waxed thread)

4 x 20 mm Buckles , 3 D rings and a few rivets

PRINTING THE PATTERN

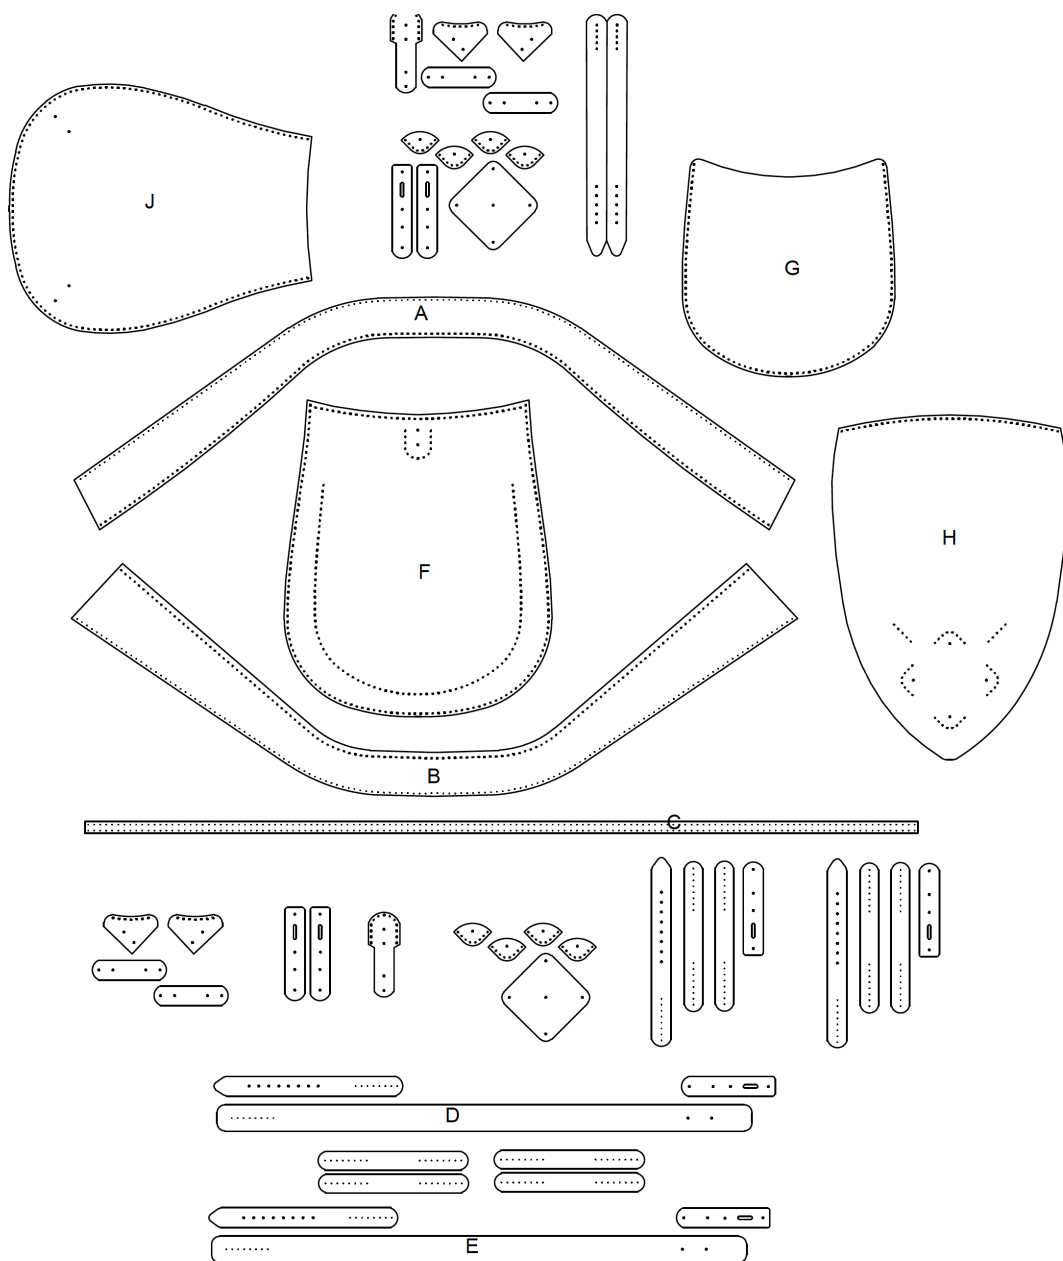

Set up your paper size to A4 and choose actual size in the printer settings

Alternatively you can use “letter” format which is approximately the same size and will not impact the size of the product significantly

Print all the patterns. Take all the large pieces are spread over 2-3 and even 5 pages pages. Use the diagram at the beginning of the pattern and the letter codes to make sure you attach everything correctly

Once you are done you should have all the pieces shown here. Use these to cut the leather and make your bag.

In order to further help with your build, we filmed the entire process from the start to finish.
Please access your instructional video here:
