

Hello there,

Thank you for the order(s).

→ To View the video tutorial:

Please go to:

<https://www.youtube.com/watch?v=1AVahBjtLCw&t=29s>

→How to use the pattern?

1. Print the pattern in "actual size"/full/100% Scale and set the margin to 0
2. Check the scale boxes on the pattern
3. Assembly/tape the pattern pieces (If the full pattern is divided into several pages)
4. Mount the pattern onto a 1/8-inch-thick chipboard and cut the chipboard to make the template
5. The template is ready to be used
6. You could use an awl to mark the cutting area as well as the location of the holes. This template could be used repeatedly.
