So let's get to it :)

Using pattern, cut out the lizard and make holes. It's little tricky to cut out the fingers, but with little patience it's possible to do :)

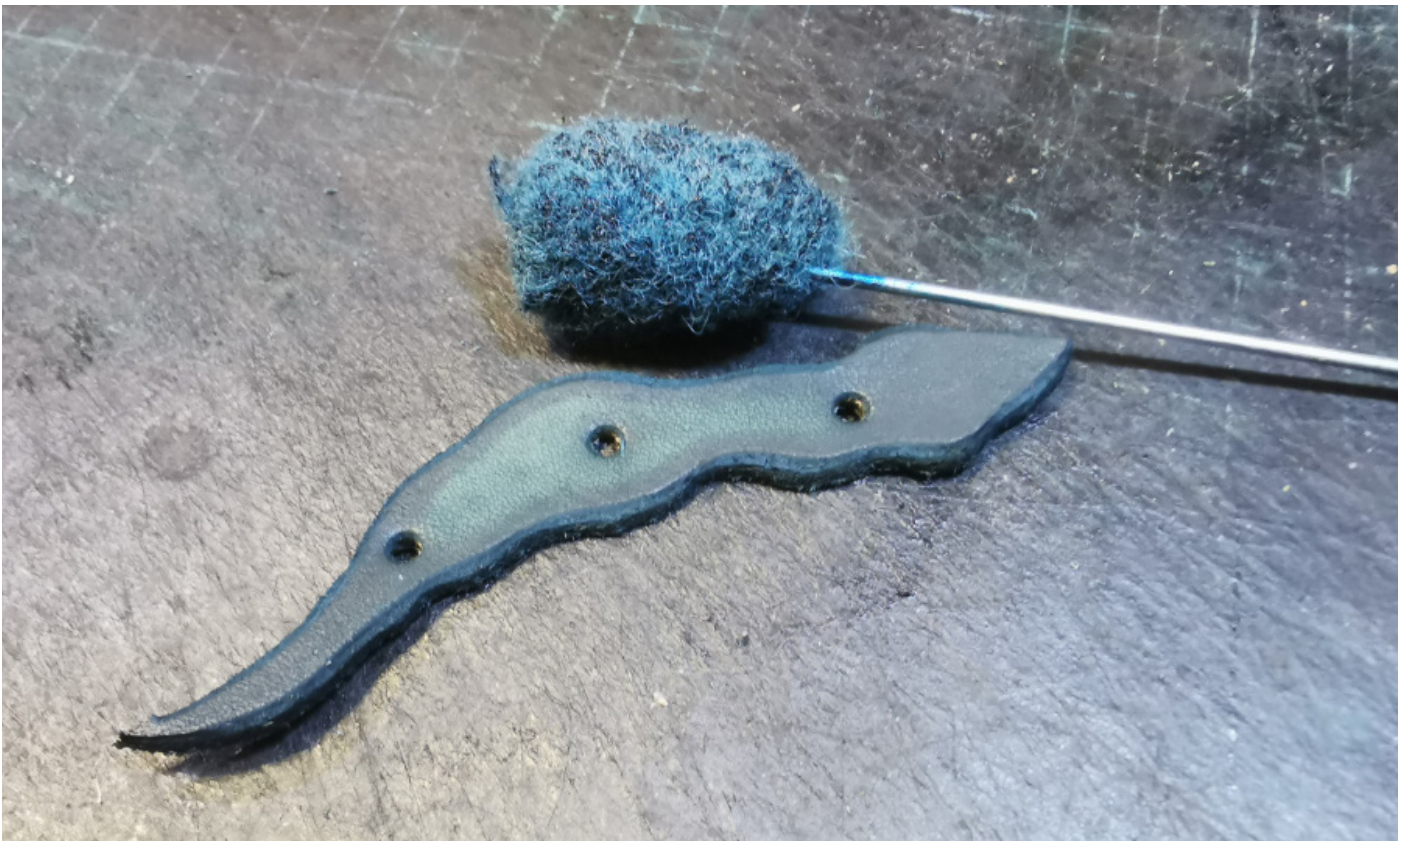

Bevel the edges - we recommend to don't bevel the fingers, because it's really small.

Dye both of parts - we recommend to dye it by different colours.

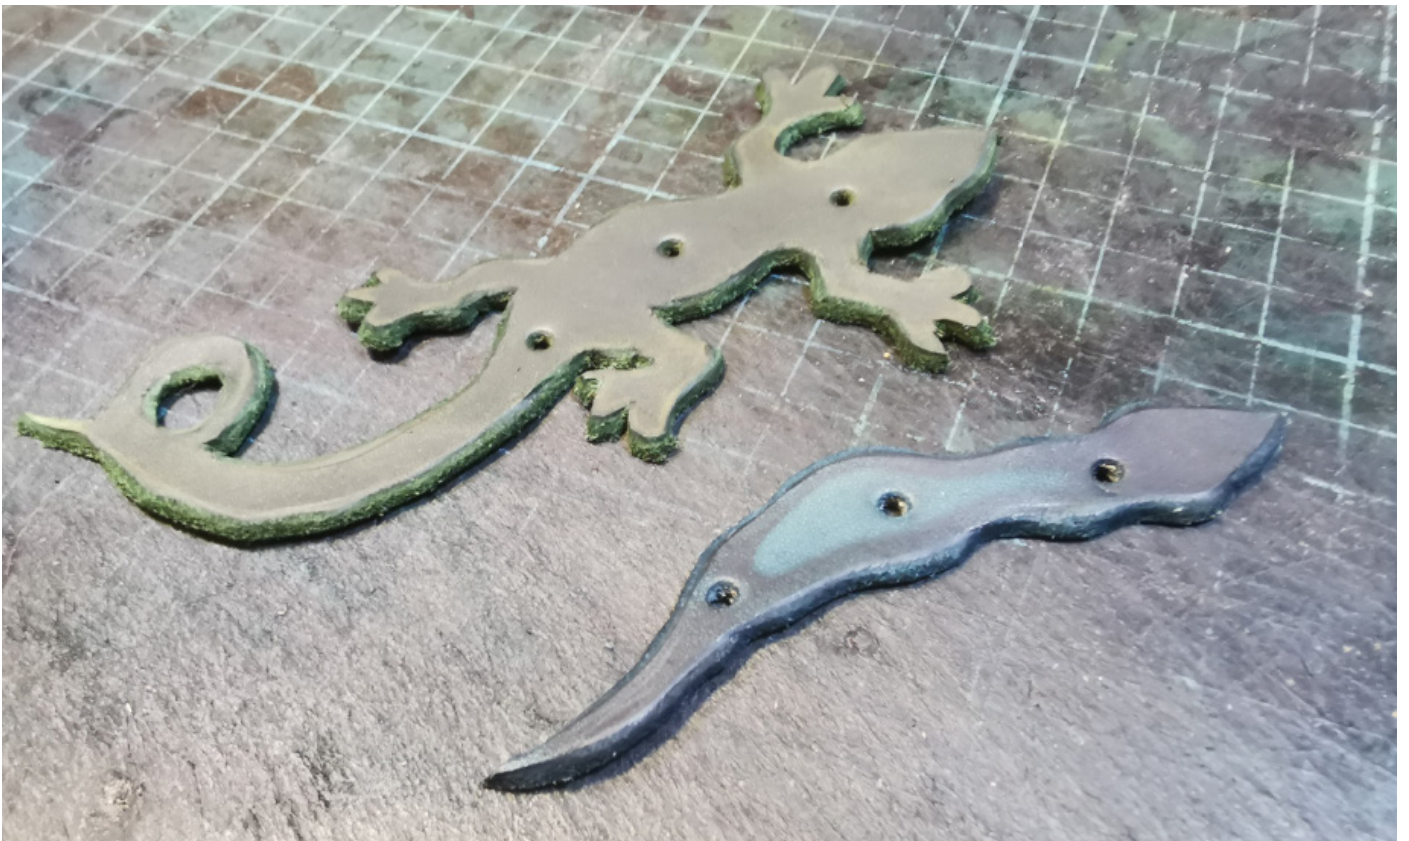

Dye second part.

Smooth the edges. It's good to do it when leather is wet.

Result:

LIZARD CHARM

Now you will need 3 rivets, contact glue and some kind of spatula.

Put bottom parts of rivets to holes in Bottom part.

LIZARD CHARM

Spread glue to rough side of Top part.

Spread glue to smooth side of Bottom part. Attention: spread glue ONLY on area, where Top part is touching Bottom part. Let it be for app 10 minutes.

Put Top part on Bottom part using rivets poking out from Bottom part. Push hard for 10 seconds.

„Close“ the rivets.

Result.

LIZARD CHARM

Its good idea to apply some acrylic coating on edges and bottom of lizard.

Also on top of lizard apply some leather protective coating and polish using some cotton cloth.
