

HOW TO ASSEMBLE

PAGE 1 / 2

All needed parts are considered in pattern file in 9 pages. you will also need a 60 and a 40 cm long straps with 3 cm wide for the belt that will connect to each other with a buckle. First, stick and sew a zipper to the zipper1 slot on #1 and zipper3 slots on both #9 pieces. then connect female magnetic snaps on both #2 pieces. connect male snap fastener on #4. now sew t and t2 edges of #4 and k and k2 edges of #2 to the inside of the pockets. then sew #7 on #3. stick both pieces of #6, back to back of each other. then connect Female snap fastener on #6 and after that, put #6 on #5 and sew six first holes. pass the head of #6 through the rectangular slot on #5. now sew both #3 pieces on #1 through (e) edges and be noticed that the face of the leather of #1 and #3 should be on each other and #3 should be upside down (in compare to charts). sew #5 on #1 through (a) edge in the same way. after that, sew #2 and #4 on #1 the way that the edges of #2 and #4, go inside of the pockets. now cut the #14 on a layer of fabric to use as #1 lining. put the lining layer behind #1 and stick only 1 cm of around of it. it will separate the zipper1 pocket from main pocket. now put #9 right and #9 right back pieces , back to back of each other and stick them from the edges. between them will be a coin pocket. do the same for #9 left. now you should sew all around #9 except(m) edge and consider that when you get to the (y), you should pass #10 through a rectangular ring and fold it to its back and put the edges of #10 between #9 pieces. now sew both pieces of #11 to the left and right of #12 through (w) and (w2) edges. now you should sew #1 to the #11 and #12 through (c) edge. and then sew #14 to #11 and #12 through (v) edge but when you get to the (m) edge, you should put #9 between #11 and #14. after that, put both #13 on left and right of a piece of zipper witch will be zipper2 and sew them. then sew #13 to #1 through (s) edges and sew the second #13 to #14 through (g) edge. now connect male magnetic snap to #8 and then pass it through a buckle and fold it to its back and stick it to itself. then lock the buckle to the #7 hole. the buckle is decorative. finally, connect the straps to the rectangular rings.

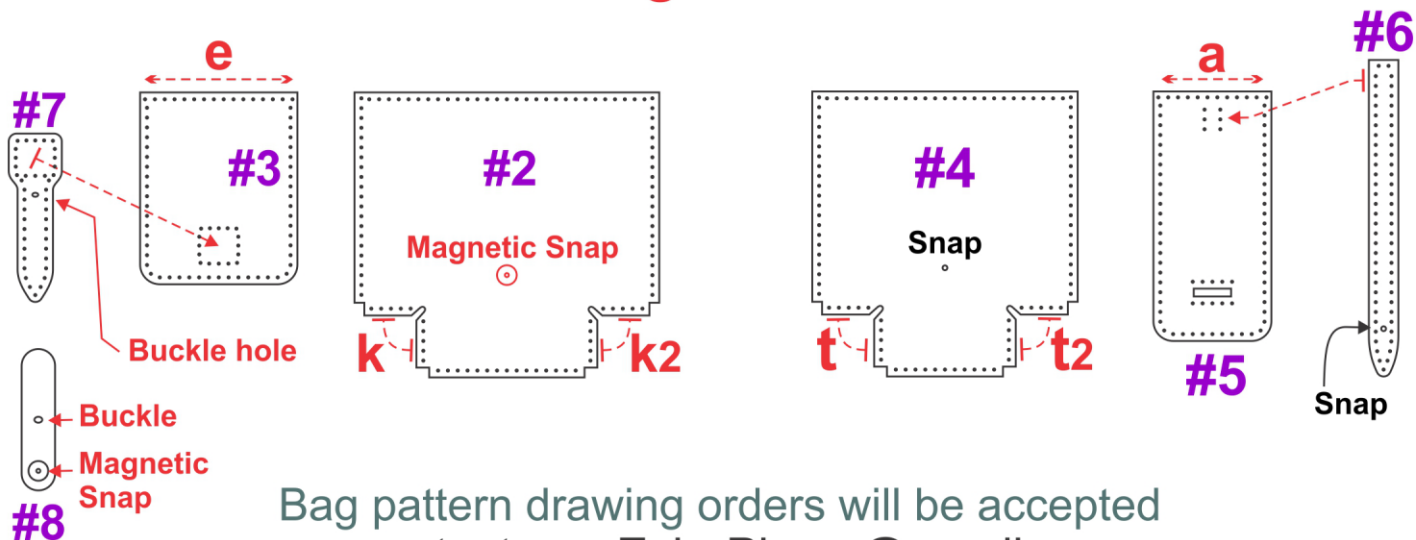

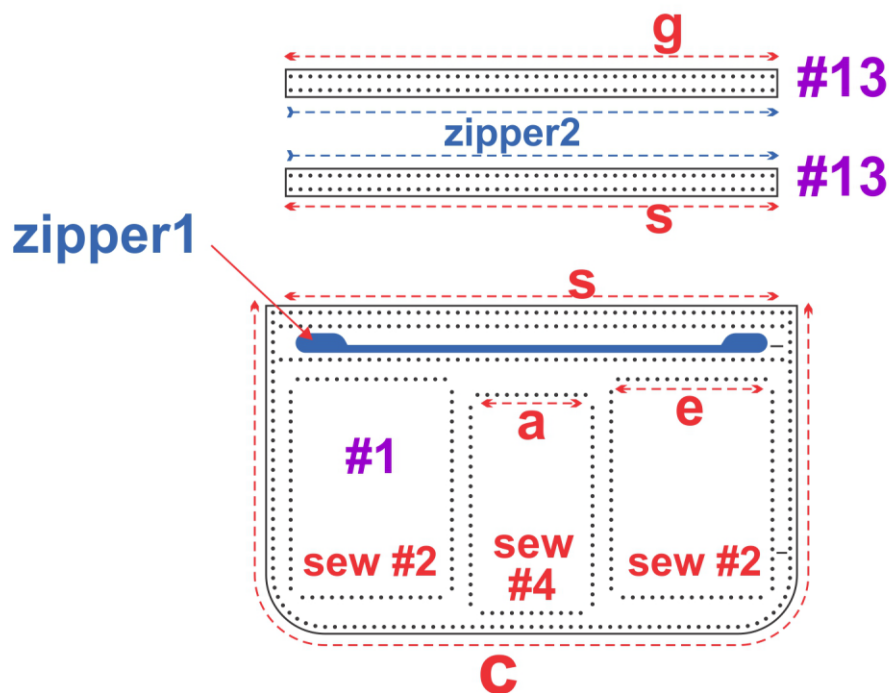

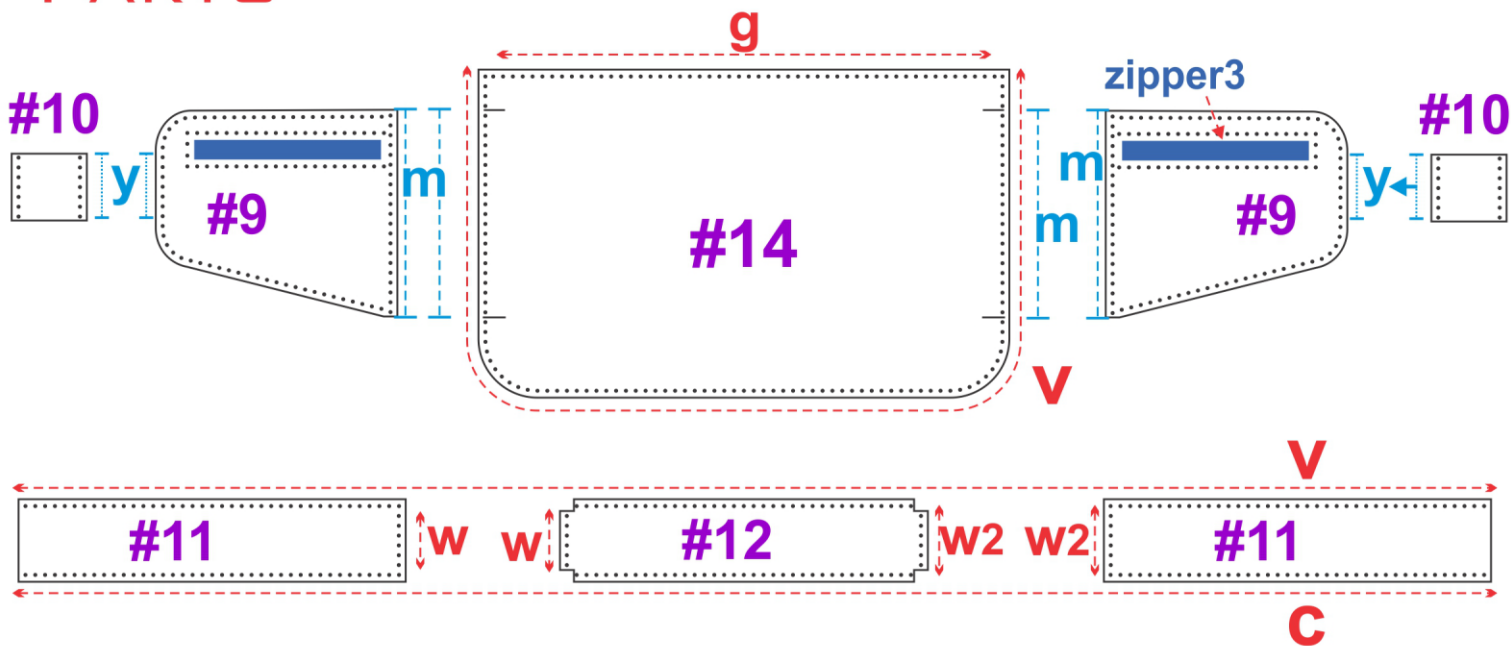

MATERIALS AND FITTINGS NEEDED

Cowhide 5-7 oz leather : approx. 6 ft²
Linen or other waxed thread : approx. 50 m
Fabric for the lining : 3 ft²
Zipper : 100 cm
Zipper puller : 4
Size 3 cm Rectangular Ring : 2
Size 3 cm Buckle for the belt : 1
Size 2 cm buckle : 2
Magnetic snaps : 2
Snap fastener : 1
