

Trapezoidal rigid handbag

A 3.5 mm thick piece of leather is sewn around molded pieces that form the sides of this rigid bag. The flap is pressed against a raised border that acts as a seal: the objects are well secured against the elements and unwelcome hands.

Closing is ensured by a solid brass mechanical button with proven efficiency.

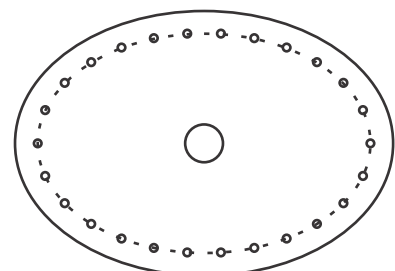

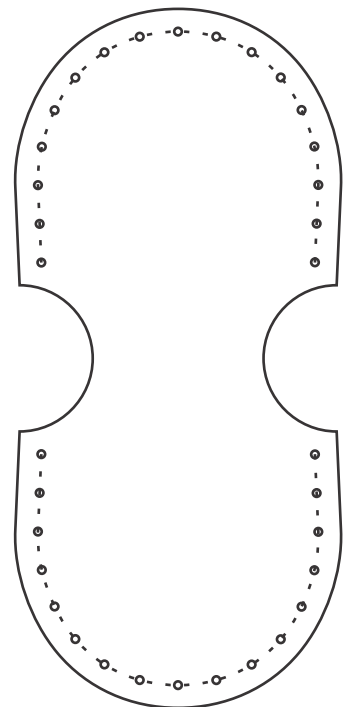

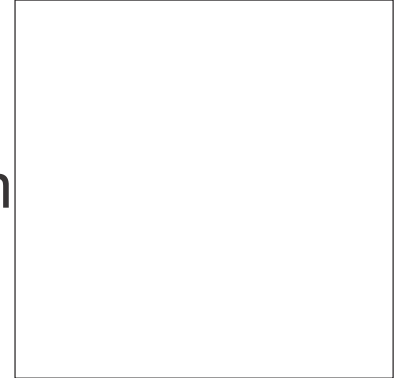

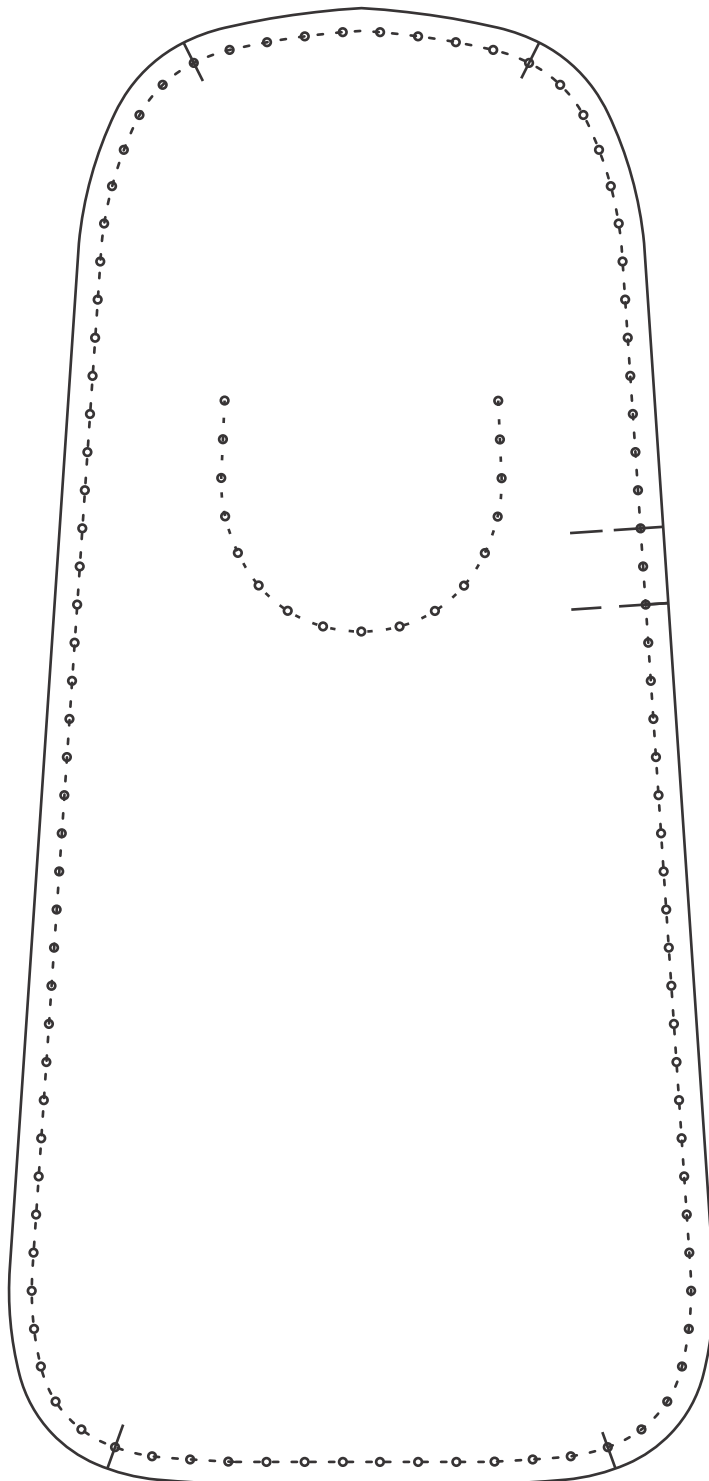

Inside, a pocket for credit cards and tickets is plated on the back.

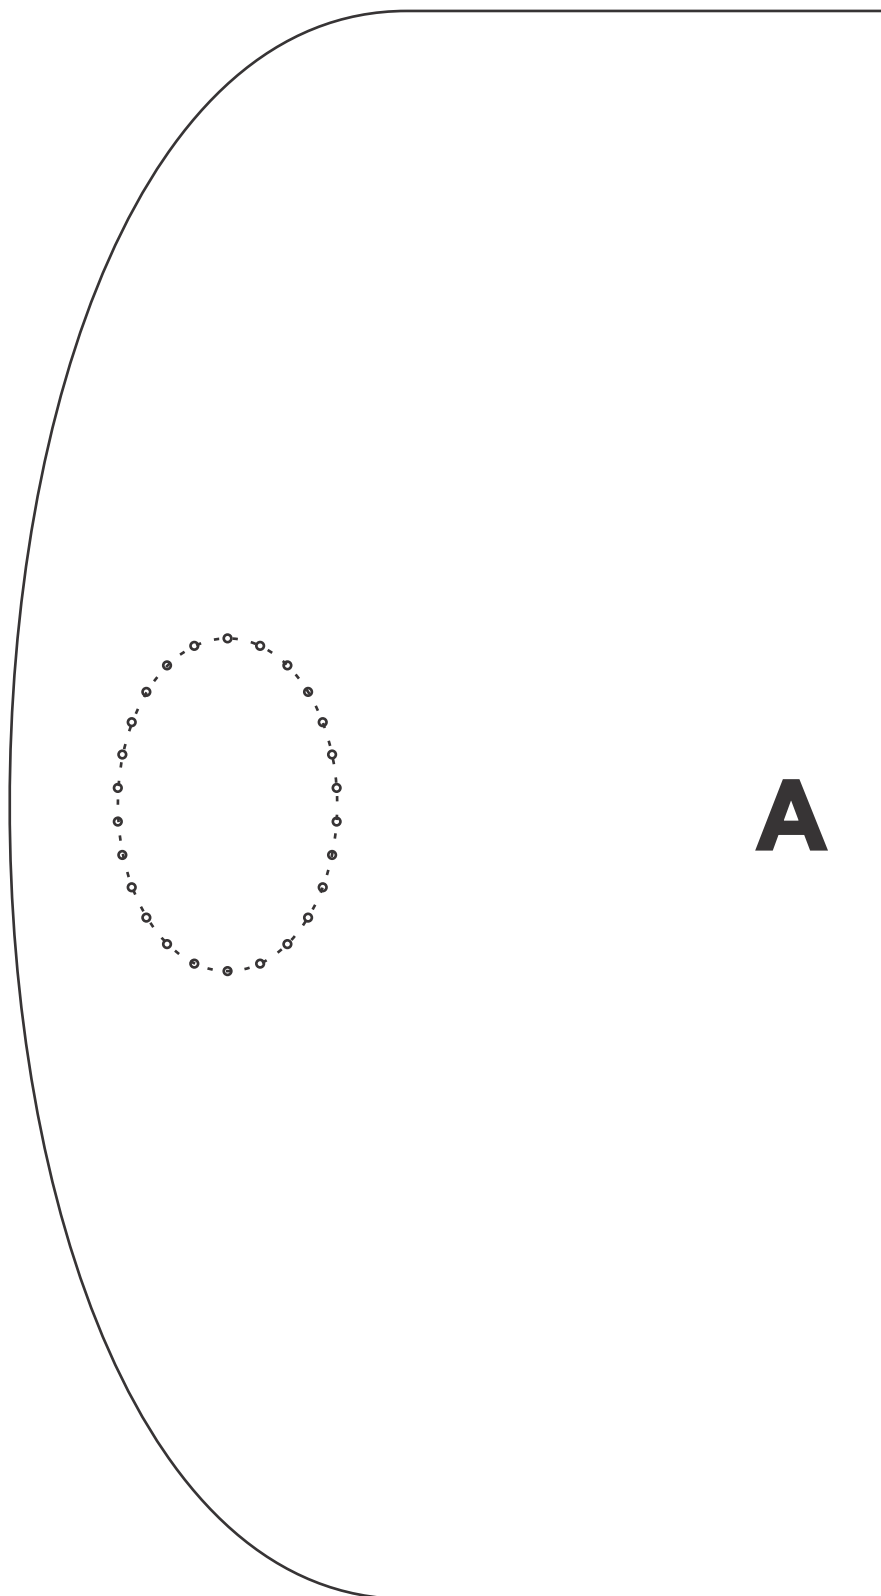

Dimensions: width 24 cm, height 18 cm, depth 9 cm

The pattern is designed for ISO A4 size paper.
