The diagram shows a cross-section of a shoe sole. It is divided into two main horizontal layers. The upper layer is labeled '底革 1 枚' (1 piece of sole leather). The lower layer is labeled '裏地 1 枚' (1 piece of lining). A vertical line runs through the center of the sole, separating the left and right halves. The entire sole is outlined with a blue line, and the internal layers are separated by a black line.

底革 1 枚
