

Lavantia Crown Leather Tray Pattern

Prinking iron interval=3.38

Tutorial video~<https://youtu.be/QVWz6UgJZYk>

50mm

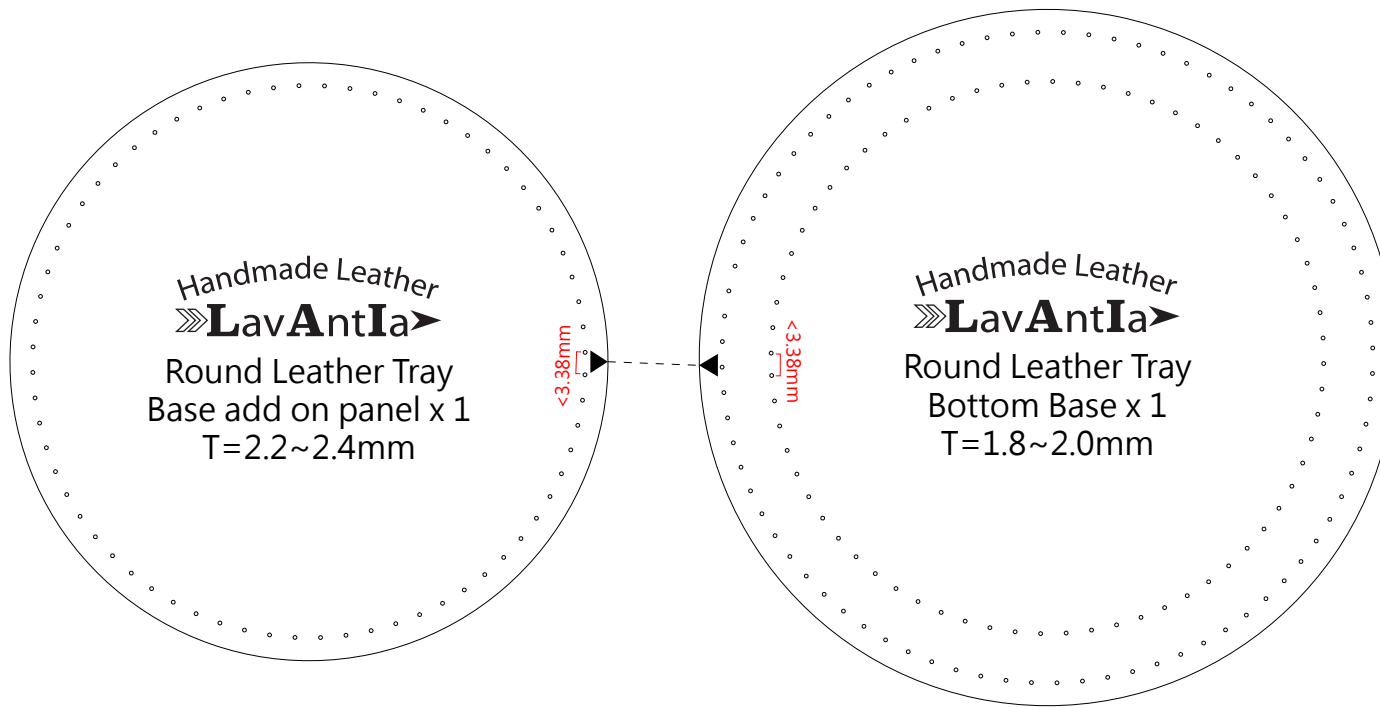

Intervals between hole marks in red are not 3.38mm.
Please punch them through one by one with an awl.

Handmade Leather
LavAntia

Crown Leather Tray
Surrounding edge x 1
T=2.2~2.4mm(**note**)

Note:
You may glue two peices of 1.1~1.2mm
leather with flesh side together before
cutting to have a better outlook and quality.

Important:

Punch holes from the skin side and do remember to align the 4 holes on the same side.
You' d better make marks on leathers to remind yourself to do it right.
