You can sell the items you create using this pattern but I would kindly ask you to buy the pattern again for every 10 items you sell, this is a way for me to get my royalties.

NOTICE FOR RUSSIAN SPEAKING CRAFTERS

Мы с вами коллеги, поэтому давайте уважать друг друга. Пожалуйста, не нужно заниматься пиратством. Выкройки стоят не так уж дорого, и благодаря их продажам мы, дизайнеры, можем кушать, оплачивать счета и продолжать создавать для вас новые дизайны. Если эта выкройка попала к вам откуда-то еще, кроме как из моего магазина, пожалуйста, свяжитесь со мной и поделитесь информацией о том, где и как она распространяется.

Skull Biker Mask

Materials:

You will need around 1-1.5 sq.ft of leather, plus straps. Something around 2-3 oz for the appliqué, 2 oz for filter flaps, mask itself can be made of anything from 3 to 5 oz.

Hardware:

2 x 3/4 buckles

Rivets

Tools:

Scissors, knife.

Mallet, rivet setter, hole punchers (round for rivets and oblong for buckles).

Instructions:

Print the pattern at actual size (100%). Use the reference on top of each page to make sure everything is printed correctly. Join the pages A1 and B1 together.

This project is all about precision and accuracy. Use the diagram for the reference.

The last holes in teeth and cheeks are tricky, I use an awl to make them.

First, sew the skull onto the mask. This is a loooong stitching line (like 35-40" long) but it is possible to sew it all with one thread, see assembly file. Join the upper notch.

Second, attach the flaps, upper is straightforward, the lower goes in one seam together with the notches. If you want to make the notches first, that's ok too.

Attach the straps.

Any questions or comments, e-mail me: lissius@gmail.com.
