So let's get to it :)

BUTTERFLY CHARM

Bevel the edges of single leather parts.

Dye the leather. Colors are up to you, but we recommend to use black color for body of butterfly.

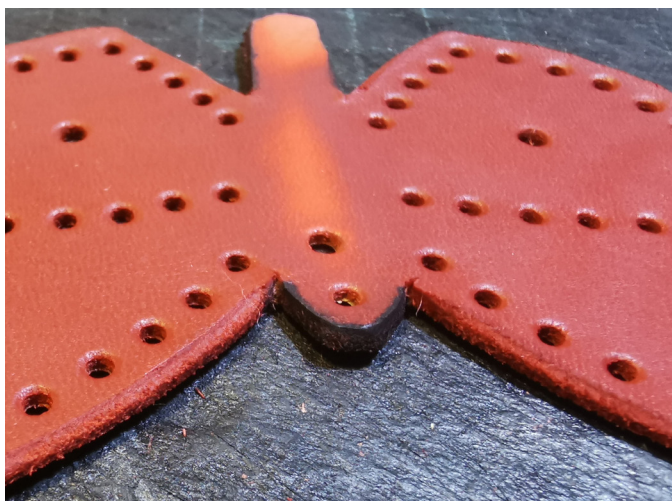

Edge of body should be black.

Color of wings is on your fantasy - there are so many options. We have chosen red color for this example

Also edge of head.

You can dye back side of butterfly also.

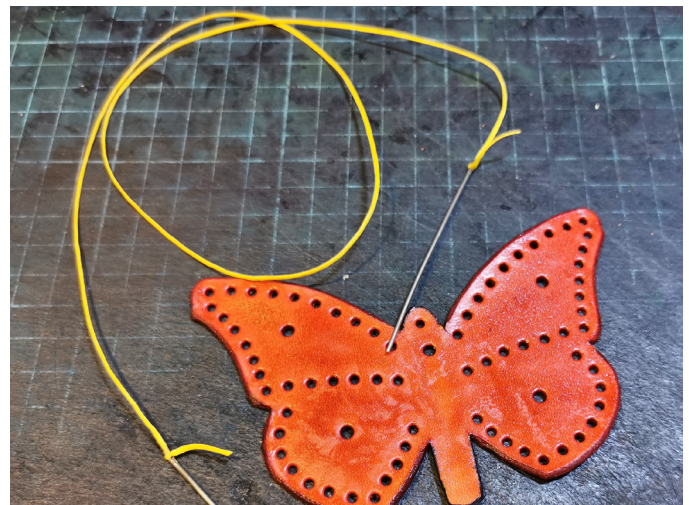

BUTTERFLY CHARM

Use acrylic coating for B part. Few minutes after coating you have to form the feelers using scrunching. You have to do it as soon as possible after coating. When it's dry, it's impossible to give it shape.

Use acrylic coating also on the A part.

Now stitch the decorative lines.

Use saddle stitch.

Both of wings have two separated lines.

BUTTERFLY CHARM

Stitch it one by one.

Result:

Prepare modified A part and 4 short rivets (1 layer of leather).

Rivet "blind" rivets, as you can see in the picture.

Now put part B onto sticking rivet on part A and press hard.

Now you will need last part (C) and glue again.
