Step 107

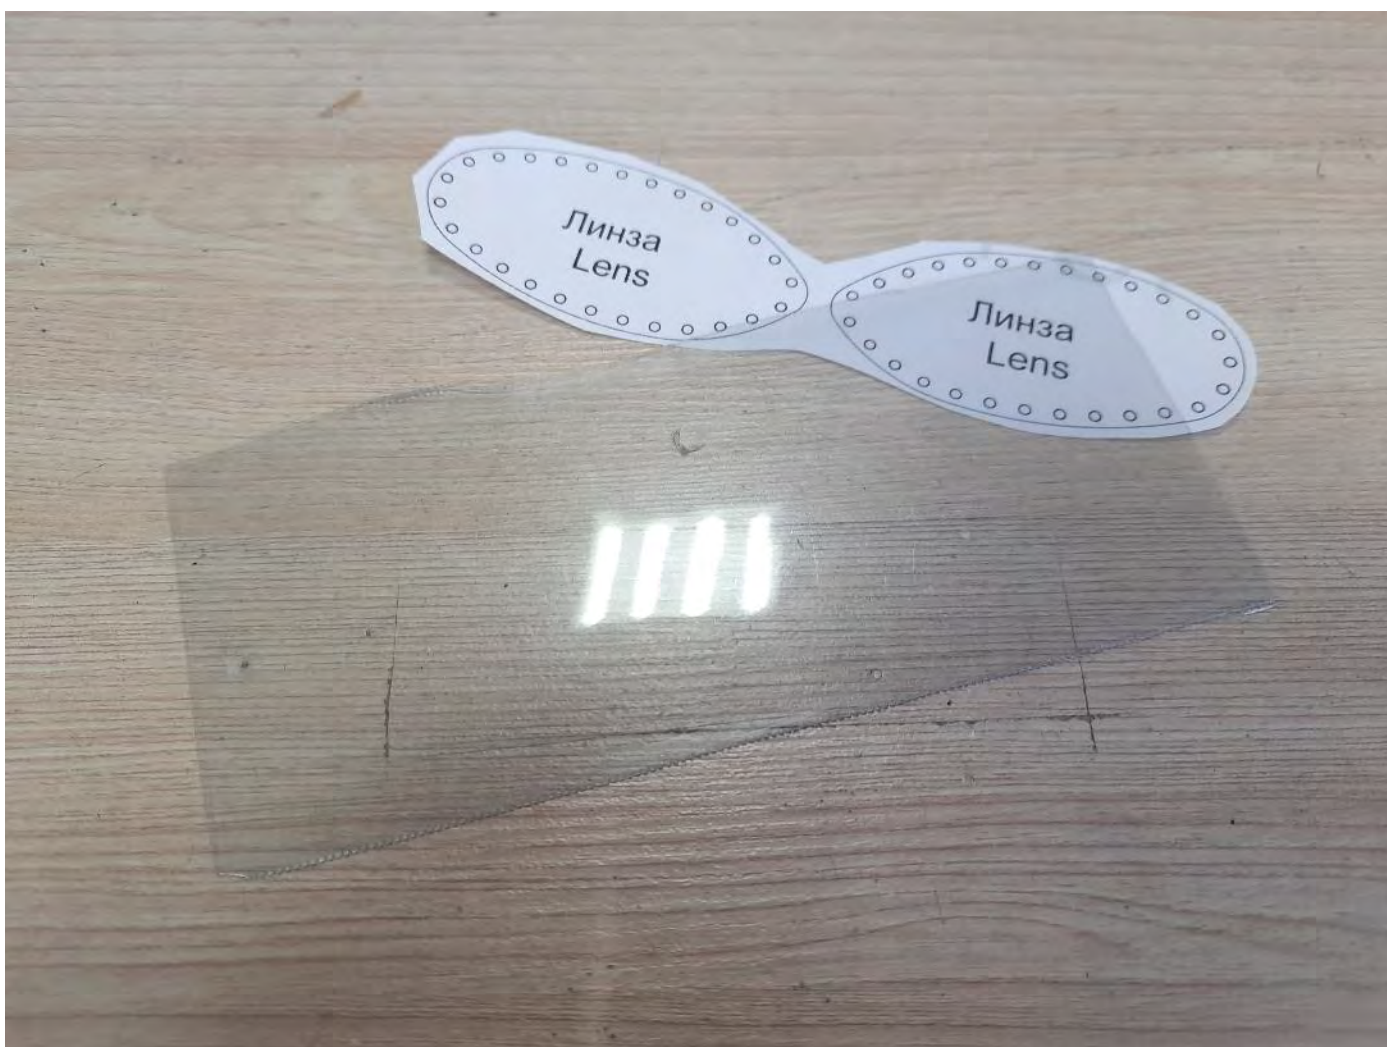

Линзы я буду делать из ПЭТ пластика. Такой пластик можно найти на упаковке товаров из ИКЕА.

Не рекомендую делать плоские линзы из акрила, так как пропадет у маски эстетический вид.

I will make the lenses from PET plastic. Such plastic can be found on the packaging of IKEA products.

I do not recommend making flat lenses from acrylic, as the aesthetic appearance of the mask will disappear.

Step 108

Step 110

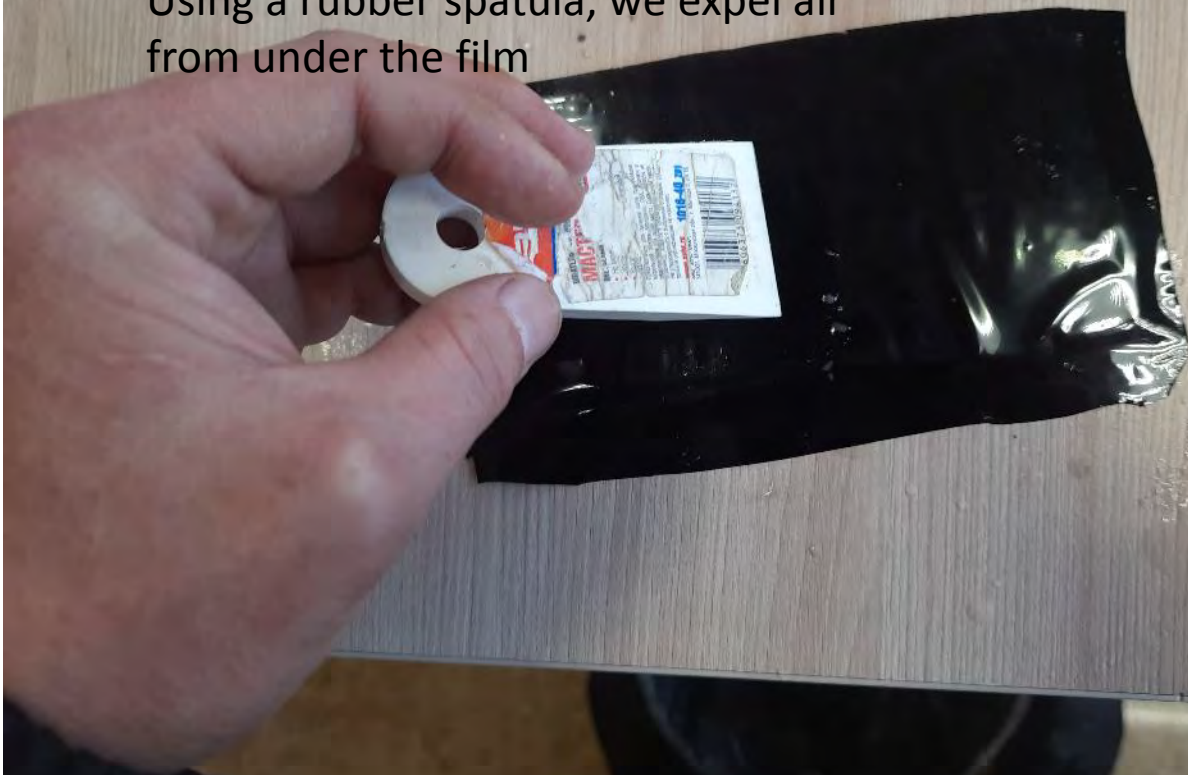

Мыльный раствор
Soap solution

С помощью резинового шпателя
выгоняем воздух из под пленки
Using a rubber spatula, we expel air
from under the film
