

ACC-27 Instruction

Step 1: Fold A09 and stitch 38mm D ring in. Fold A10 and stitch them on A02. Install the metal bridge on A01. Stitch 2 pieces of A08 together. After doing that, you can Shoot A09 on A02 with 3 rivets, the middle rivet is very important, it shoot A08 on A01 too.

Step 2: Stitch A01 and A02 together, you should use "joint stitching" skill or "baseball stitching" skill, If you are not familiar with the skills, I just advice you stitch them with a piece of leather strip to make sure the joint part firmly.

Step 3: Stitch A03, A04, A05, A06 together, make sure A05 and A06 's gap is 13mm, I design the gap as 13mm for the zipper slider, the slider I advice YKK No5, or RIRI M6, 560mm long.

Step 4: Stitch gusset, front and main body together to form the bag.
Then make the shoulder belt easily.
Finish.
