

Thank you for buying my pattern!

A few quick tips!

This pattern is based on 3.85mm stitch spacing.
The red lines leave you a 5mm trim allowance.
You can cut using the black lines and line up the edges.
Both methods are okay!

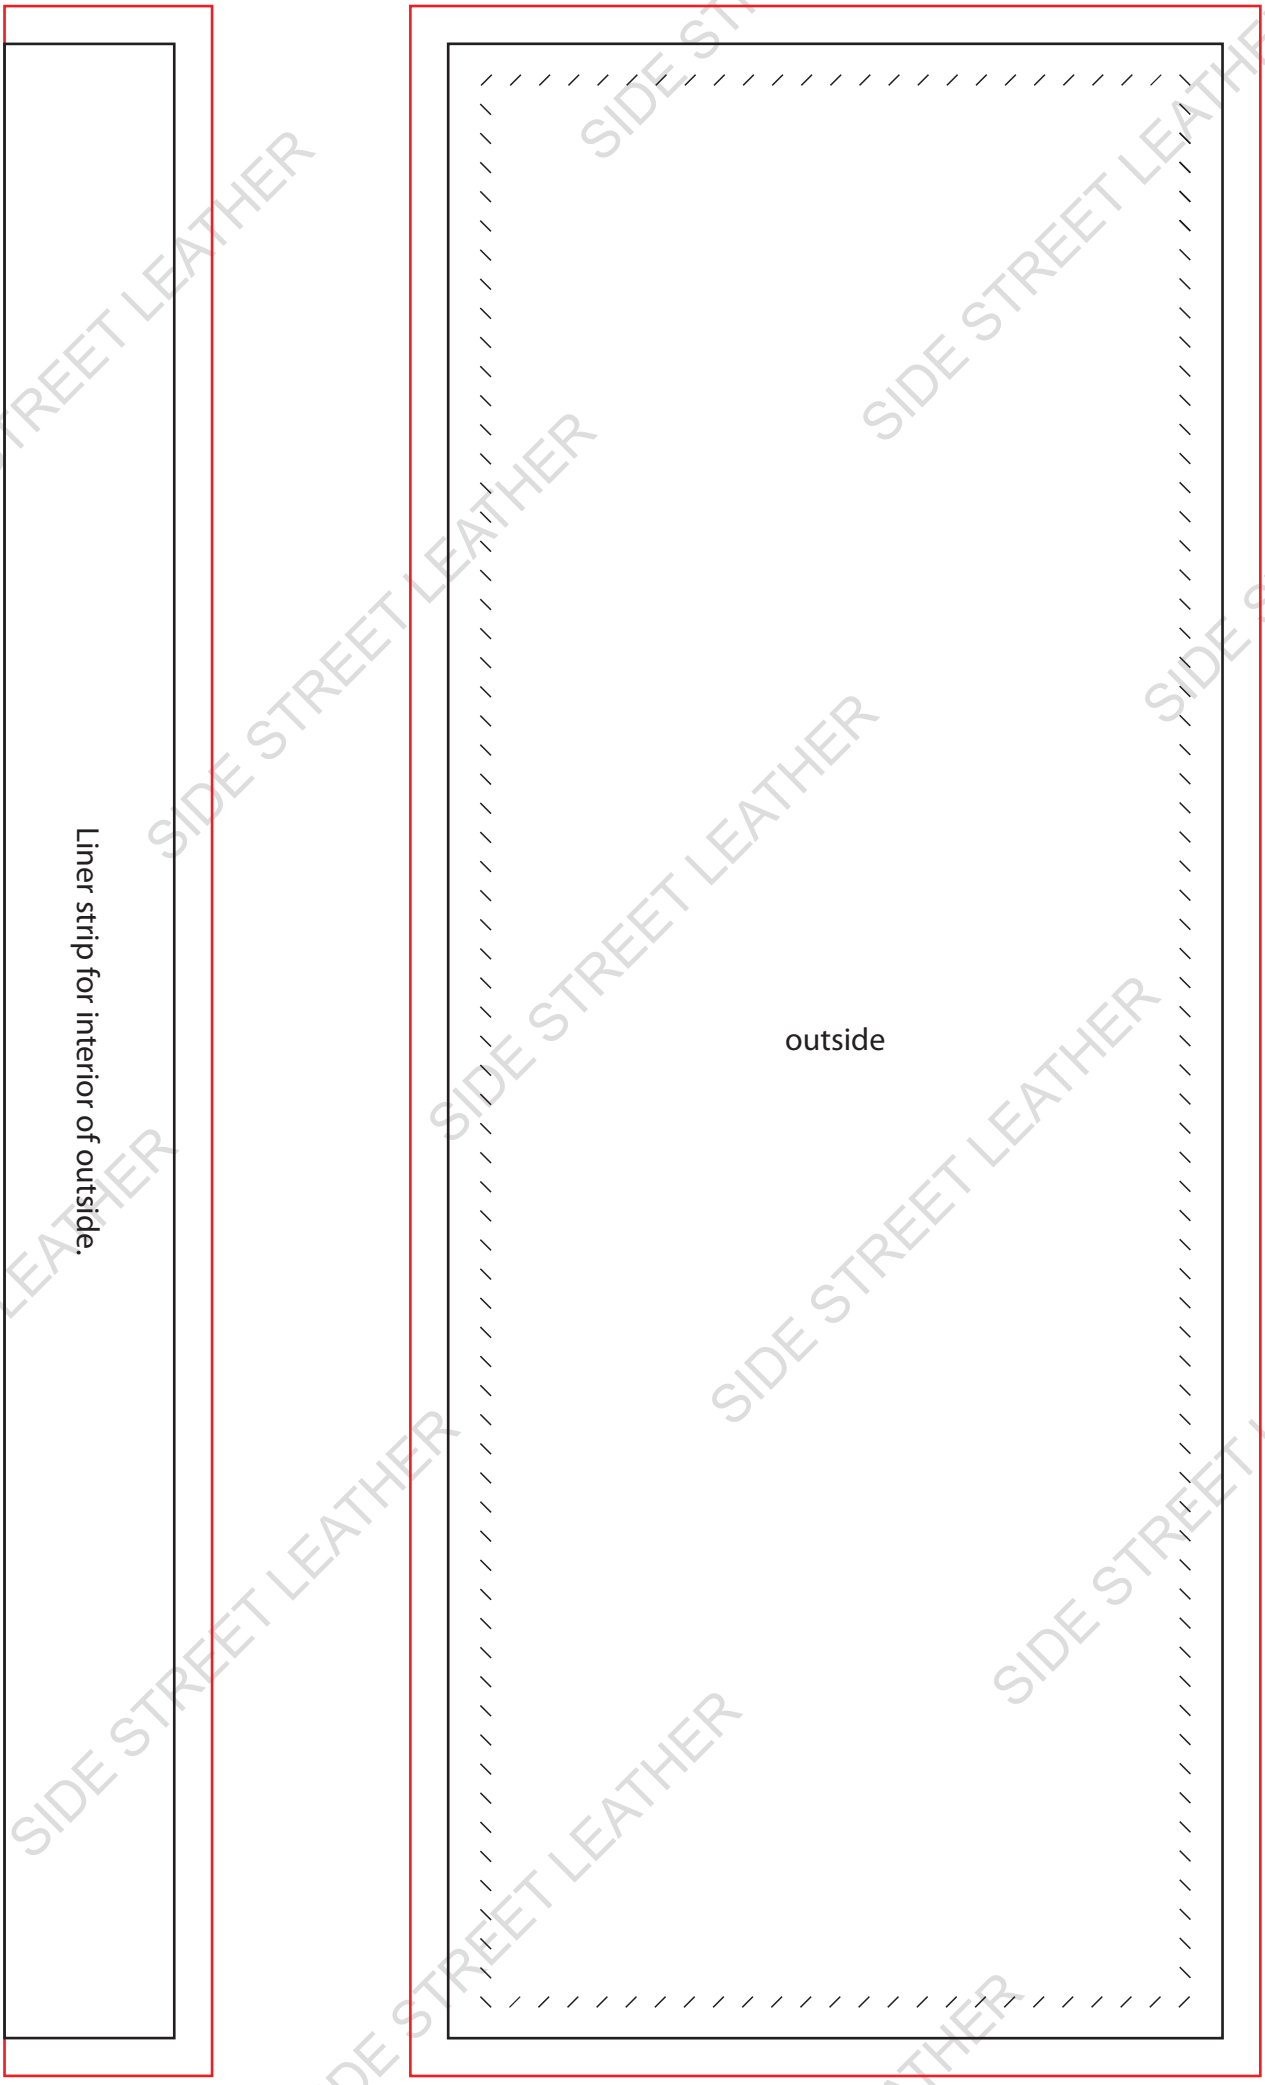

Watch this video: https://youtu.be/4B811gunoSw

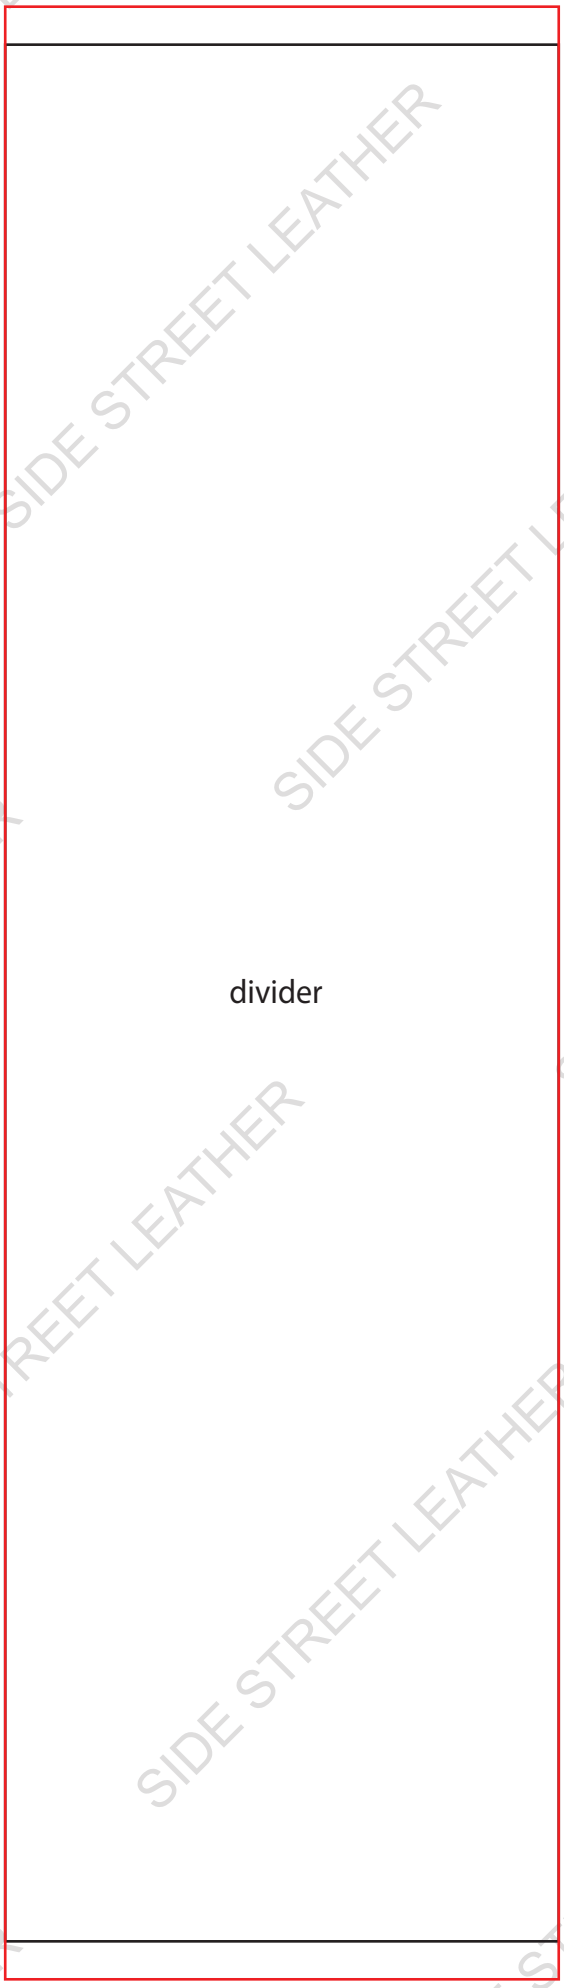

This pattern uses between 2 and 3 square feet of leather depending on the shape and quality of leather you have. Make sure you have extra.

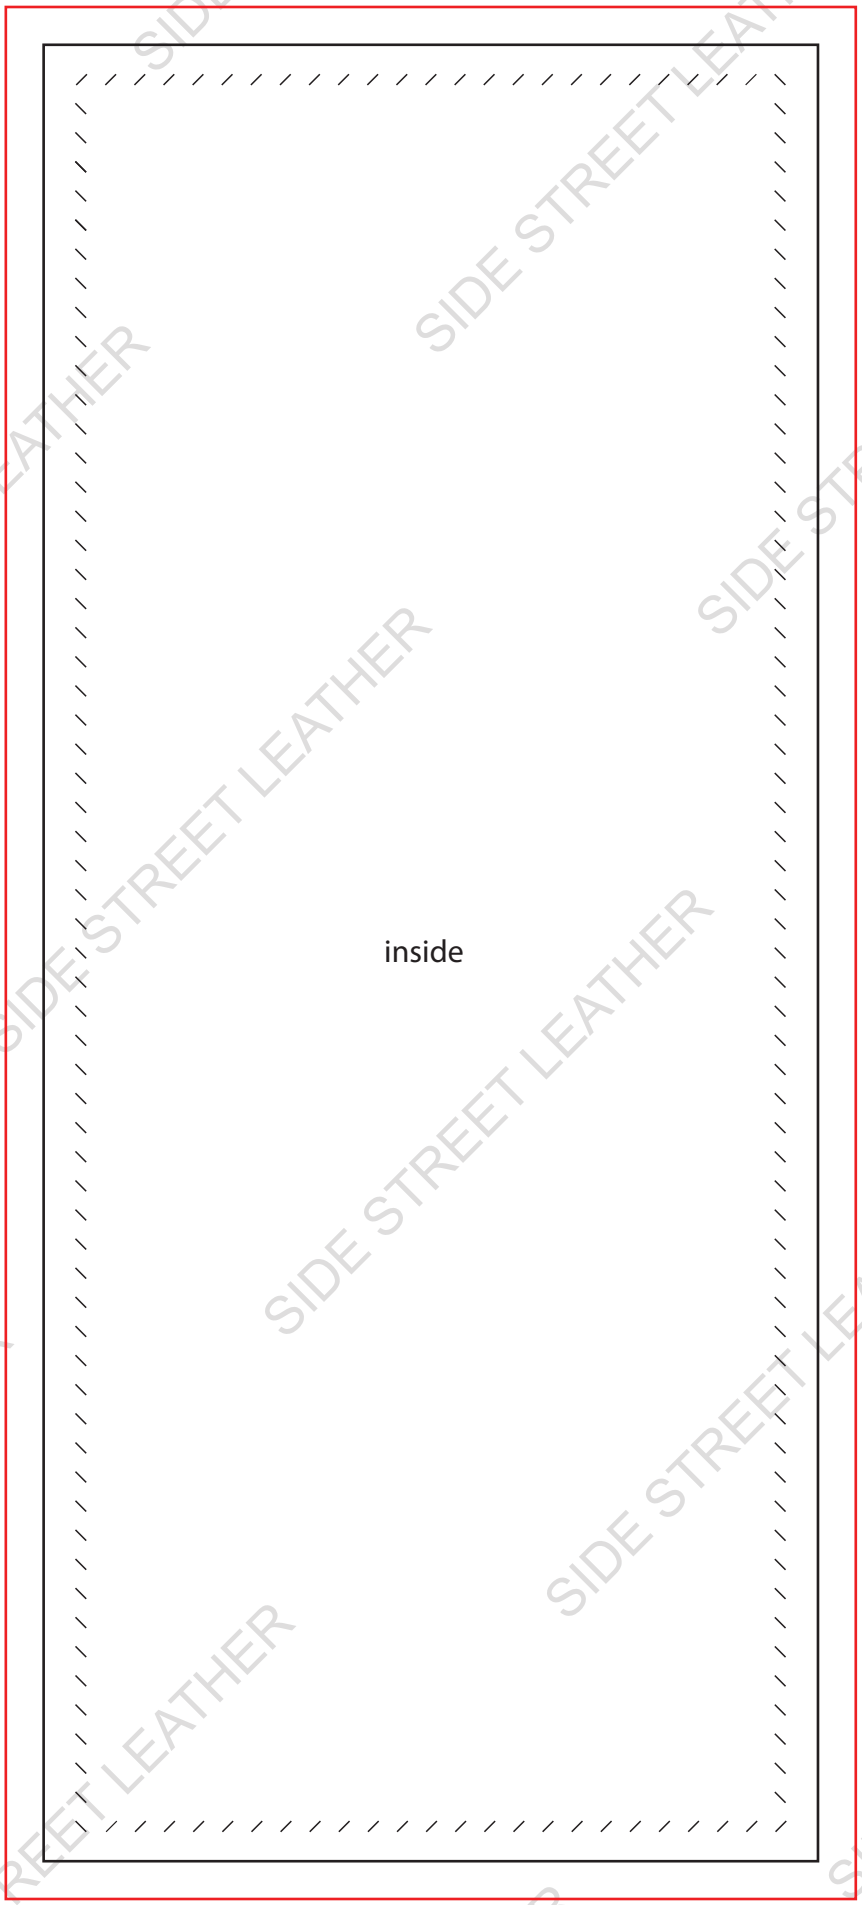

I used 2mm thick leather for the outside of the wallet
and the pocket front.
Everything else was thinned to 1mm.
