

"Deadpool" Mask (V39) ФОТО ИНСТРУКЦИЯ ПО СБОРКЕ (Photo assembly instructions)

#STEAMPUNK

by @Levit.Anatoly
PUNK

STEP 1 Распечатываем выкройку в пользовательском масштабе 100%
Print a pattern at a custom scale of 100%

Важная информация!

1. Весь шлем собирается в 2 слоя кожи. Исключением является оправа для глаз с липучкой, там сборка осуществляется в 3 слоя кожи.
2. Выкройкой предусмотрено 2 вида передней части. Без перфорации и с перфорацией. Я буду собирать без перфорации. На step 45 , 181 и 243 можно увидеть деталь с перфорацией и как она выглядит. Решение, какую переднюю часть вы будете делать, зависит от Вас.
3. Я не смог найти альтернативу для зрачков. Я выполнил зрачки из тонкой кожи 1,2 мм с перфорацией. Если вы сможете найти более подходящий вариант, к примеру белый прозрачный мягкий пластик, это будет отлично!))
4. На размере 61-62 в выкройке есть стыковка деталей. Объединять детали по маркировке «противогаз»
5. К большому сожалению, примыкание глаз никогда не будет идеальным. Это связано из-за разной плотности кожи.

Important information!

1. The entire helmet is assembled into 2 layers of leather. An exception is the Velcro eye frame, where the assembly is carried out in 3 layers of leather.
2. The pattern provides 2 types of front part. Without perforation and with perforation. I will assemble without perforation. In step 45, 181 and 243 you can see the perforated part and what it looks like. The decision of which front piece you go for is up to you.
3. I could not find an alternative for the eyes (pupils). I made the pupils from 1.2mm thin leather with perforation. If you can find a more suitable option, for example, white transparent soft plastic, that will be great!))
4. On size 61-62, the pattern has parts joining. Combine parts by marking "gas mask"
5. I cannot guarantee that the interchangeable eyes will fit perfectly to the edging. This is due to the different density of leather.

Step 7

D=2 mm

Step 9

Рекомендую, шилом установить метки где отмечены двойные круги. А также отметки «TOP»

I recommend using an awl to set the marks where the double circles are marked. As well as «TOP»

Перед тем, как вырезать детали, настоятельно рекомендую наклеить кусочек малярного скотча с обратной стороны. На нем написать маркировку детали. Это облегчит сборку!

Before cutting out the details, I highly recommend sticking a piece of masking tape on the back. Write the part marking on it. This will make assembly easier!
