5

Prepare piece "5"

A close-up photograph of leatherworking tools and materials. In the foreground, a piece of light-colored leather is being worked on, with a hole already punched. A metal punch tool with a textured handle lies nearby. Several small, round metal rivets are scattered on the surface. A yellow object, possibly a piece of leather or a tool, is visible in the upper left. The background is a dark, perforated metal surface.

The background of the image is a close-up of a leatherworking workspace. It features a dark brown, textured leather surface. In the upper left, several metal tools are visible, including a long, thin punch and a shorter, wider one. Below these, a black-handled tool with a forked end is prominent. The central focus is a stack of light-colored, tan leather pieces. The top piece is a rectangular shape with rounded corners and a decorative, hand-stitched border in a light thread. The stitching is visible along the edges of the leather piece.
