Materials:

I recommend using a 3 to 4 oz leather (veg or chrome). With thicker leather the backpack would come out too heavy.
Waxed thread around 0.8mm thick, that's more of your own choice, that is what I use.

Hardware:

- 1 x 1" snap hook (I use trigger snap)
- 2 x 1" buckles
- 2 x 3/4" buckles
- 8 x 3/8" grommets (size may vary slightly but you have to adjust the holes)
- 2 x 1" D-rings
- Rivets

Tools:

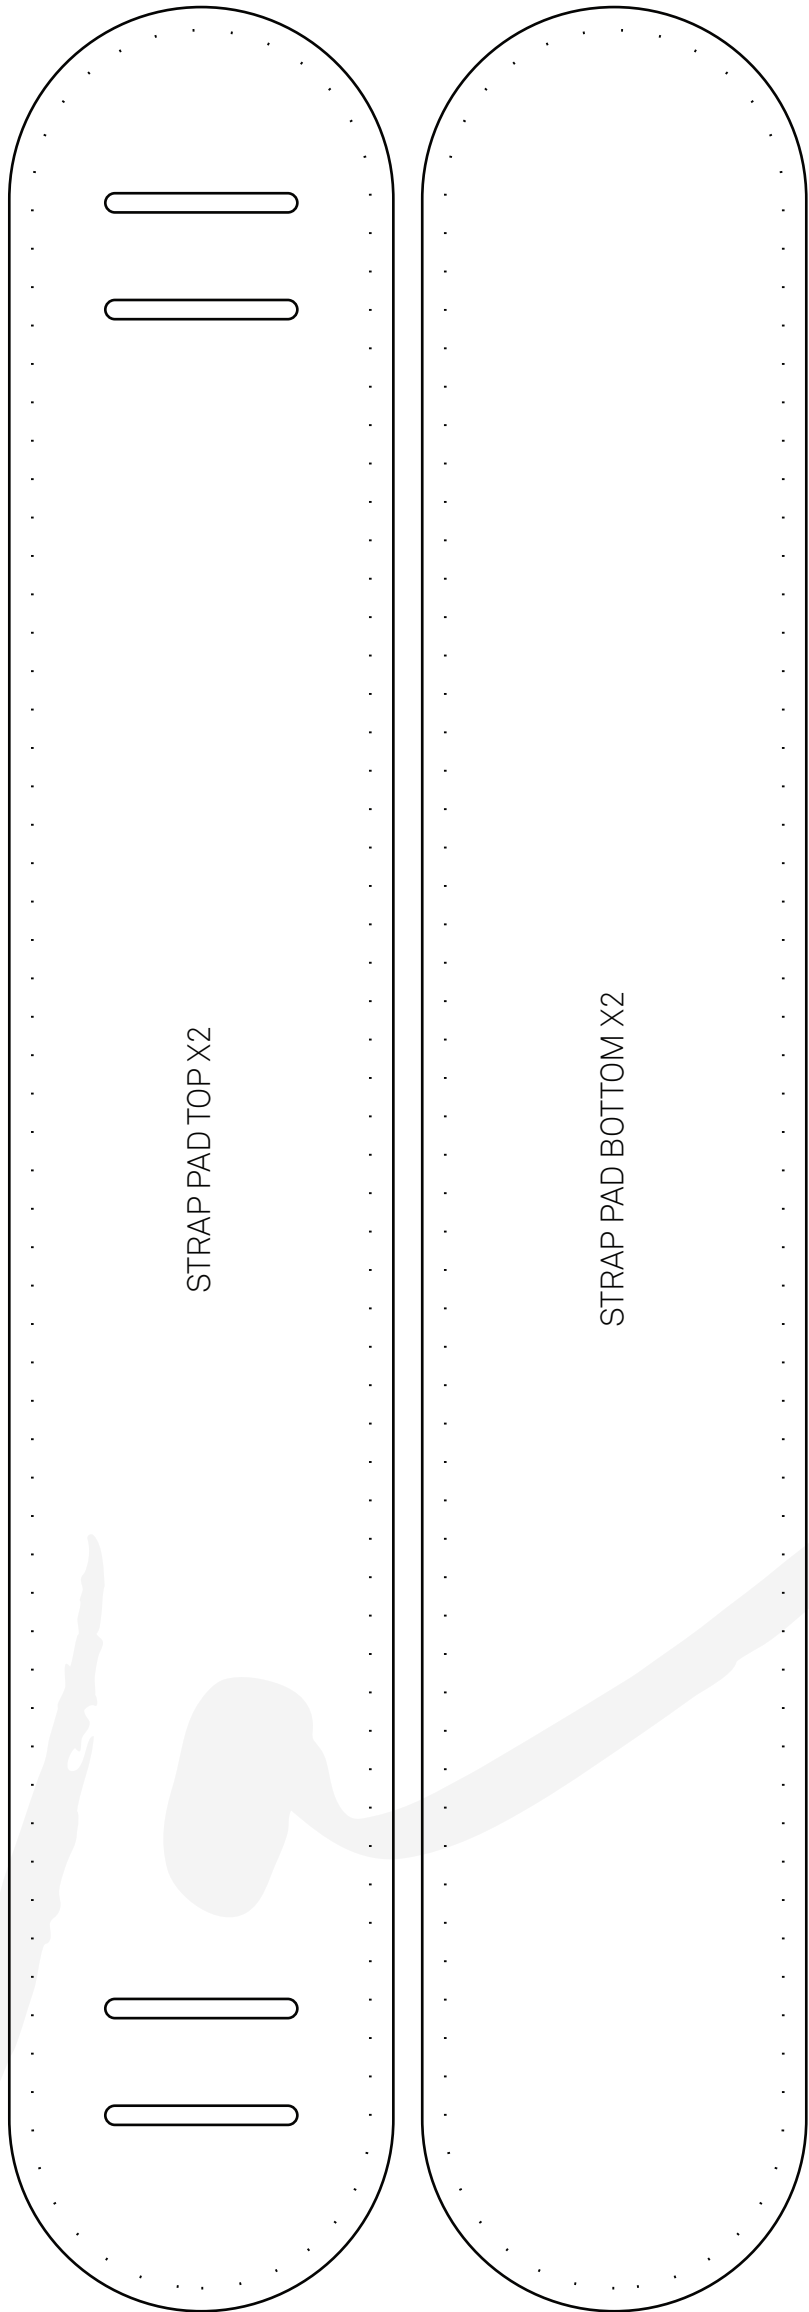

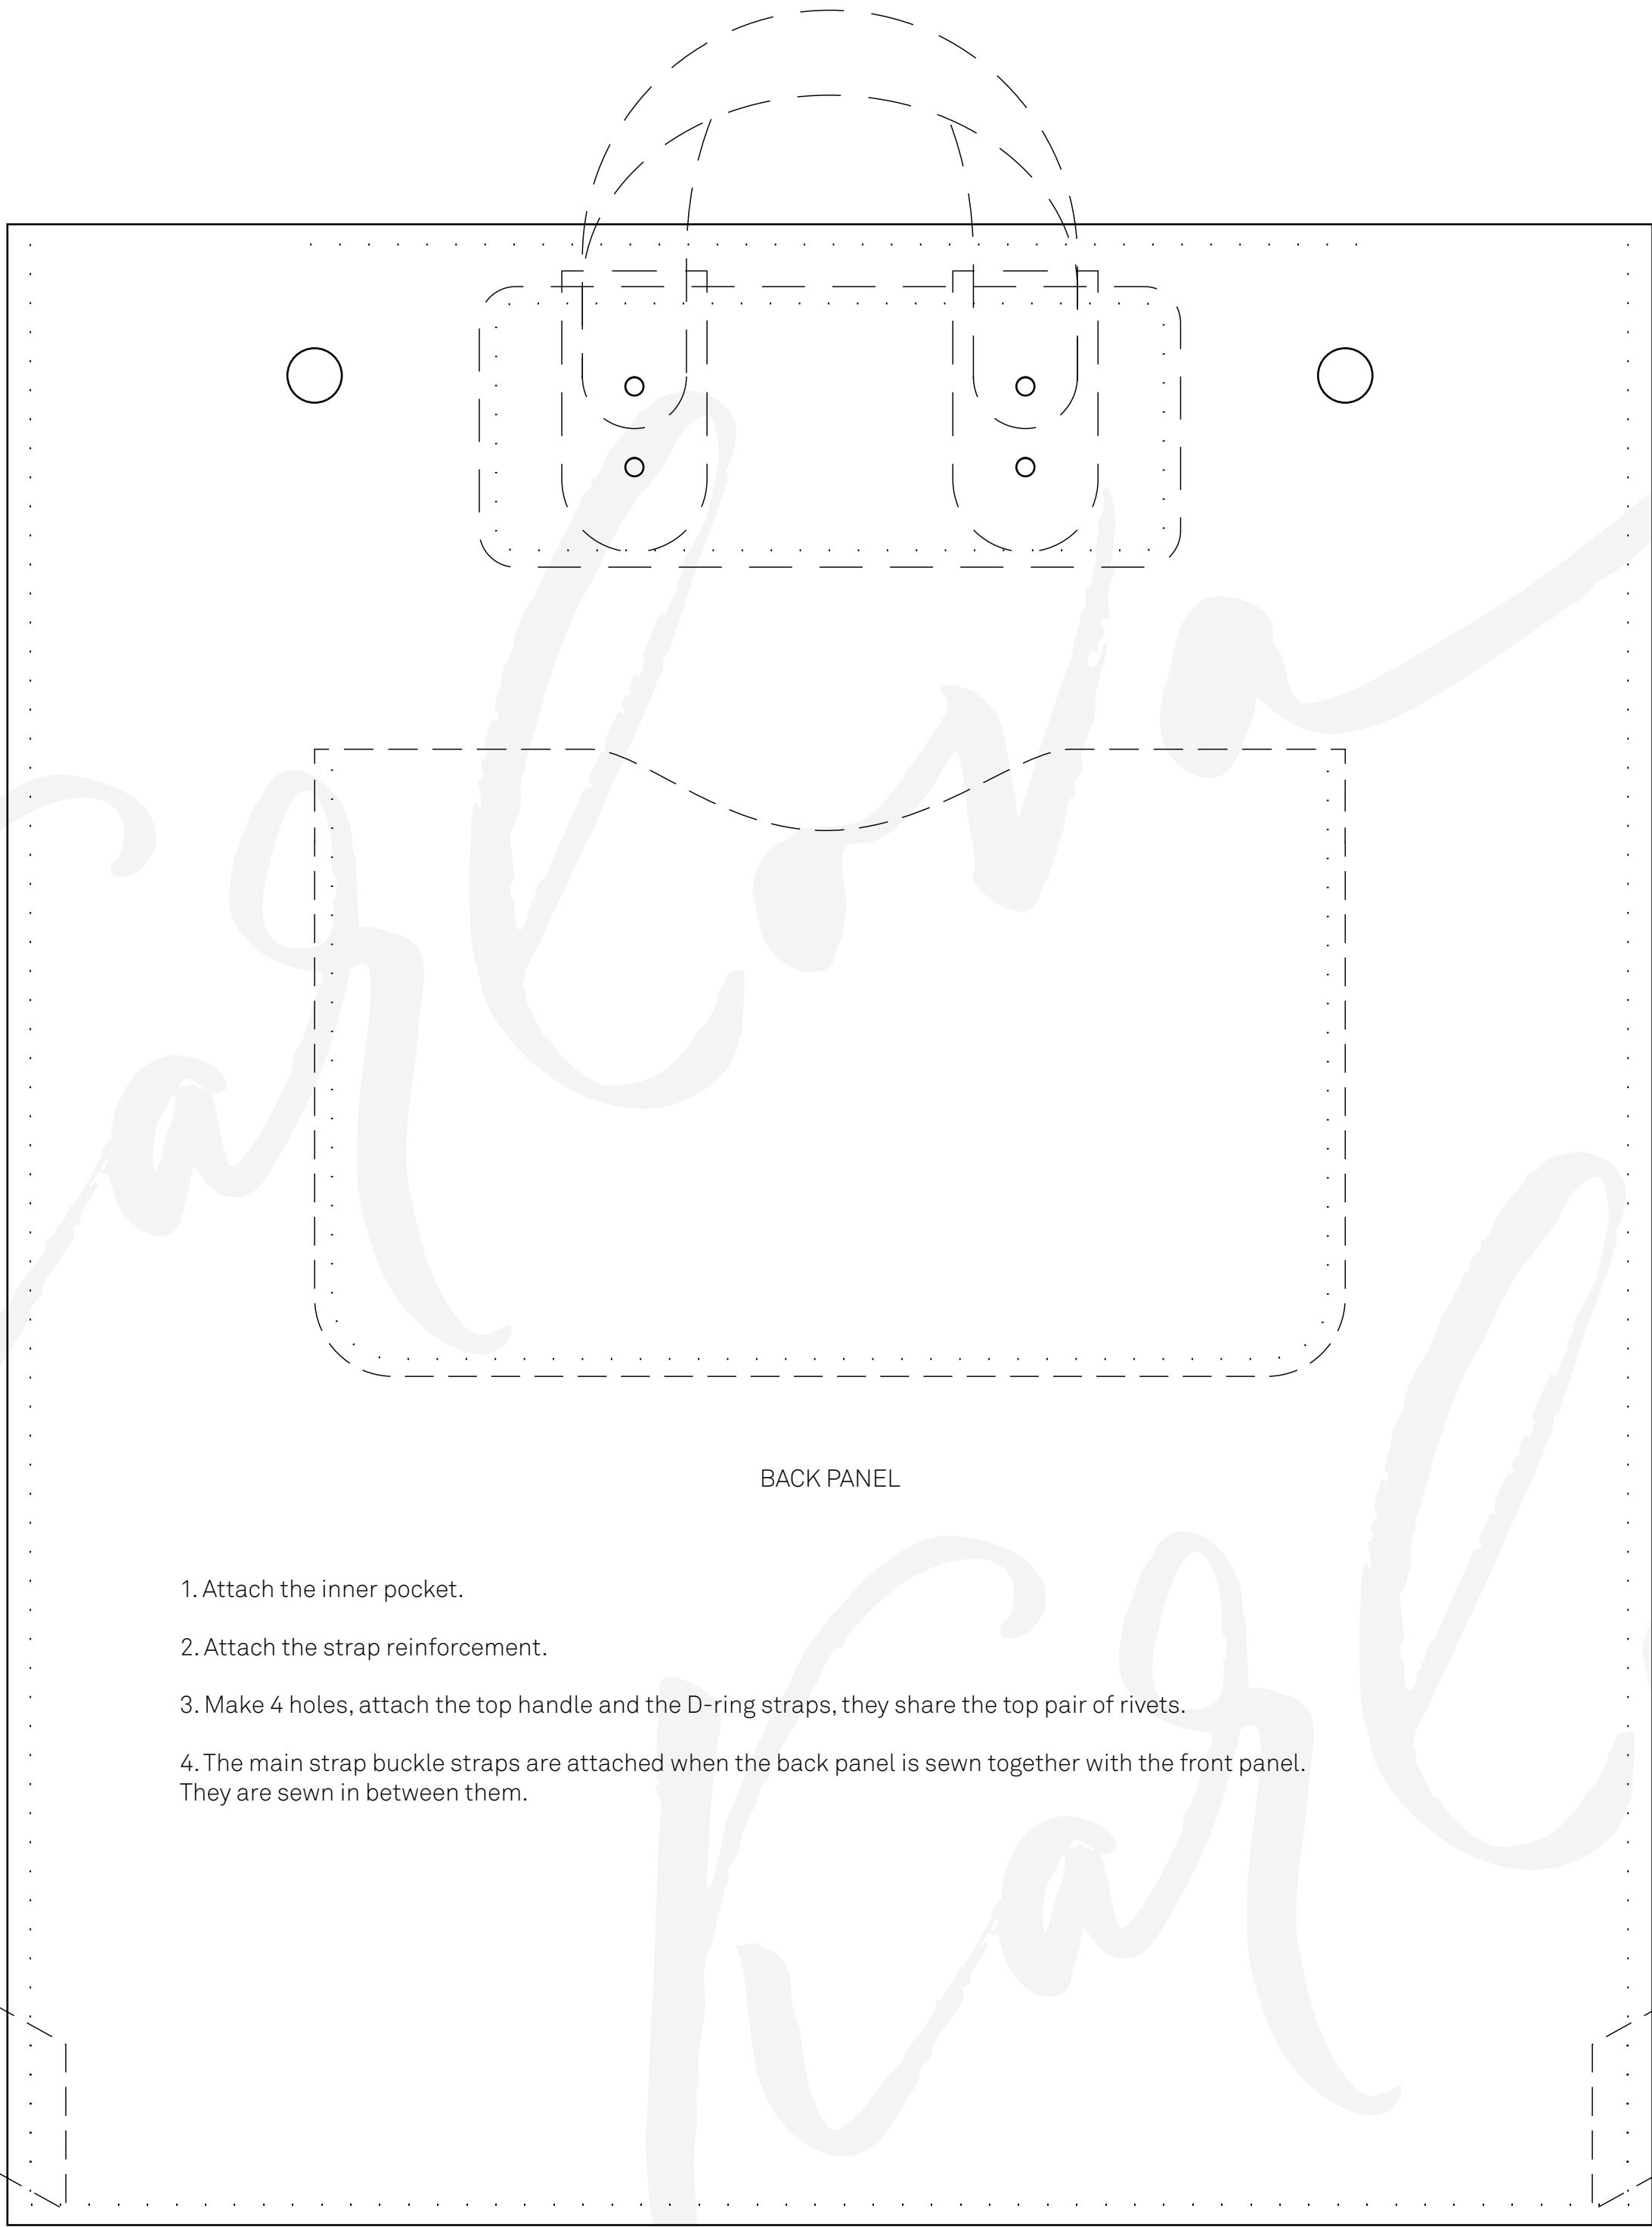

Scissors, knife (paper knife or rotary cutter would also work).
Stitching irons: my pattern is made for 5mm stitching irons (5 stitches per inch). If you are willing to use any other size please make sure that the hole count is the same where it has to be the same: pocket front and pocket gusset, the vertical seams, the bottom and both front and back panels.
Needles - according to your thread size, a pair of saddle needles.
Mallet, grommet setter, rivet setter, hole puncher.

Instructions:

Print the pattern at actual size (100%). Use the reference on top of each page to make sure everything is printed correctly. Join the pages together, you will find further instructions on the pattern itself.

NOTICE FOR RUSSIAN SPEAKING CRAFTERS
Мы с вами коллеги, поэтому давайте уважать друг друга.
Пожалуйста, не нужно заниматься пиратством. Выкройки стоят не так уж дорого, и благодаря их продажам мы, дизайнеры, можем кушать, оплачивать счета и продолжать создавать для вас новые дизайны. Если эта выкройка попала к вам откуда-то еще, кроме как из моего магазина, пожалуйста, свяжитесь со мной и поделитесь информацией о том, где и как она распространяется.

The little strap for the snap hook is passed through the oblong hole in the flap. In other words, when you sew it in, on the seam line both ends of the strap are under the flap layer. Don't forget to insert the snap hook.

You may need to adjust the length of the snap hook strap depending on the size of the snap hook you are using. They may vary but you still should be able to close the backpack. This is the reason I recommend this to be done on the last stage of the projects so you can make sure everything is working and has the right length.
