

TEST PAGE

Use your A4 printer,
print this page first choosing "actual size" on your printing menu,
then measure the ruler to make sure the measures are correct

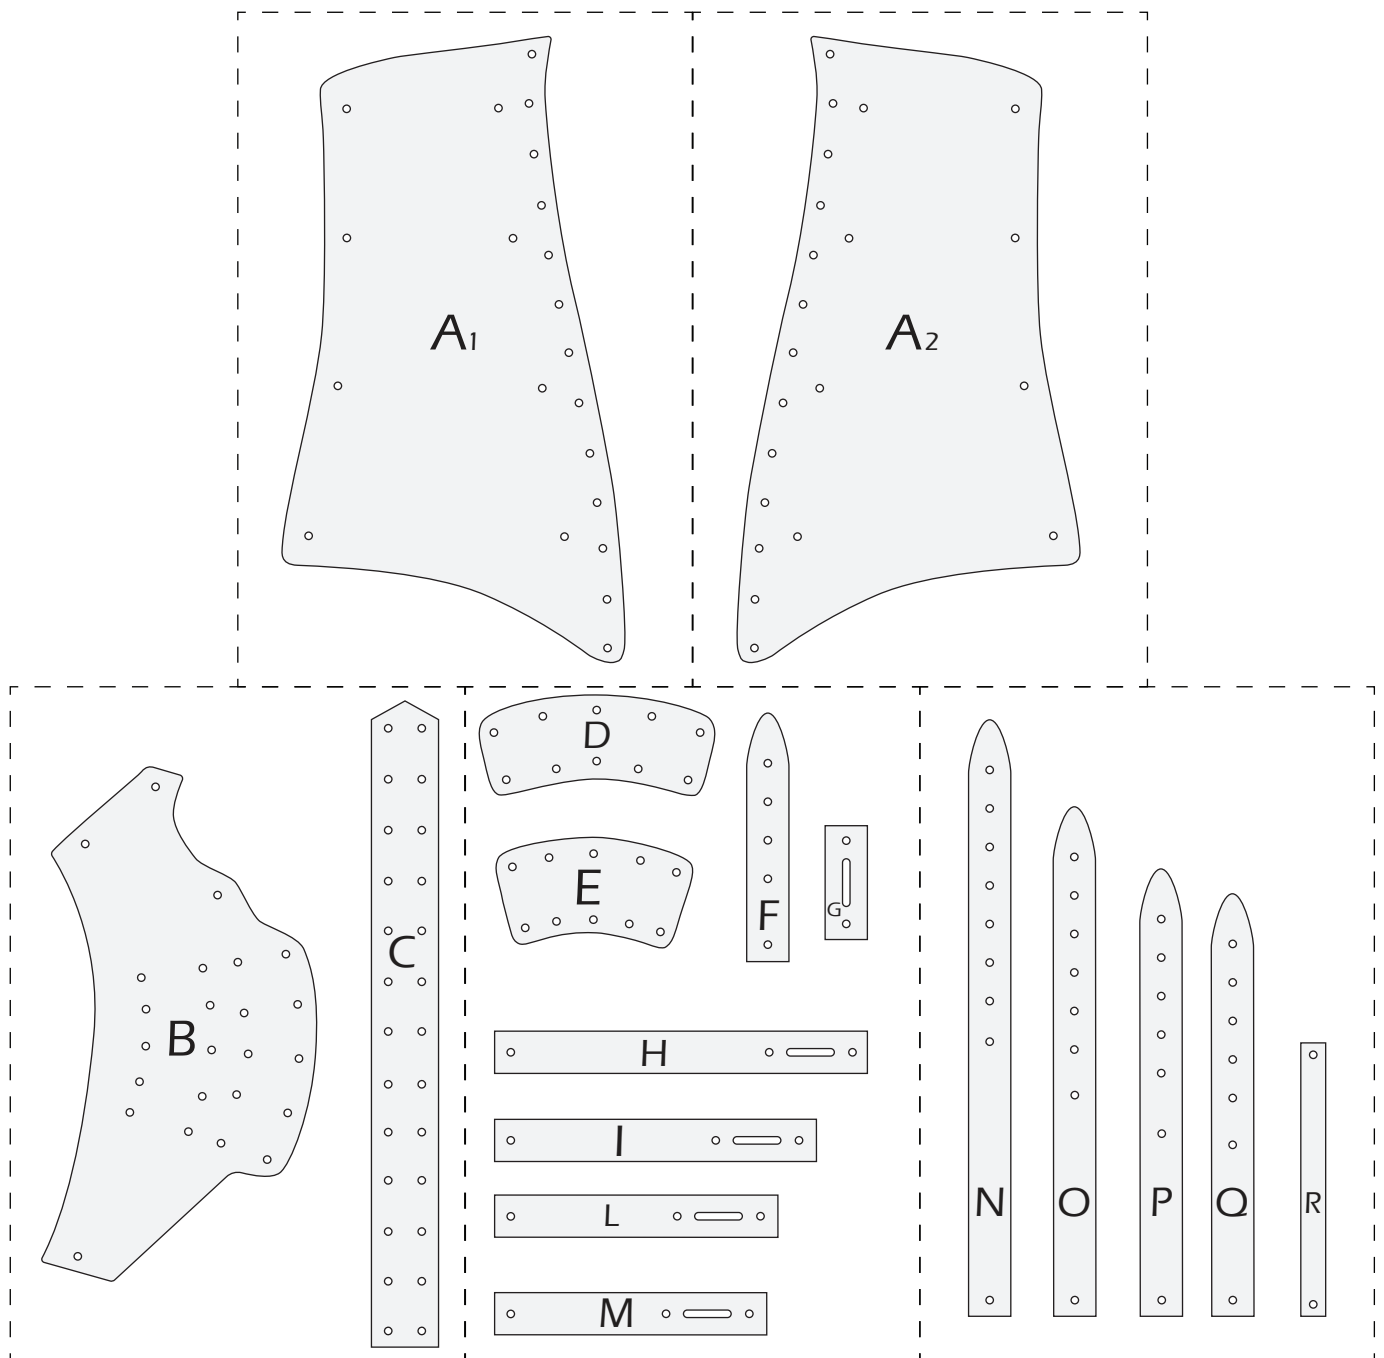

ASSEMBLY SCHEME

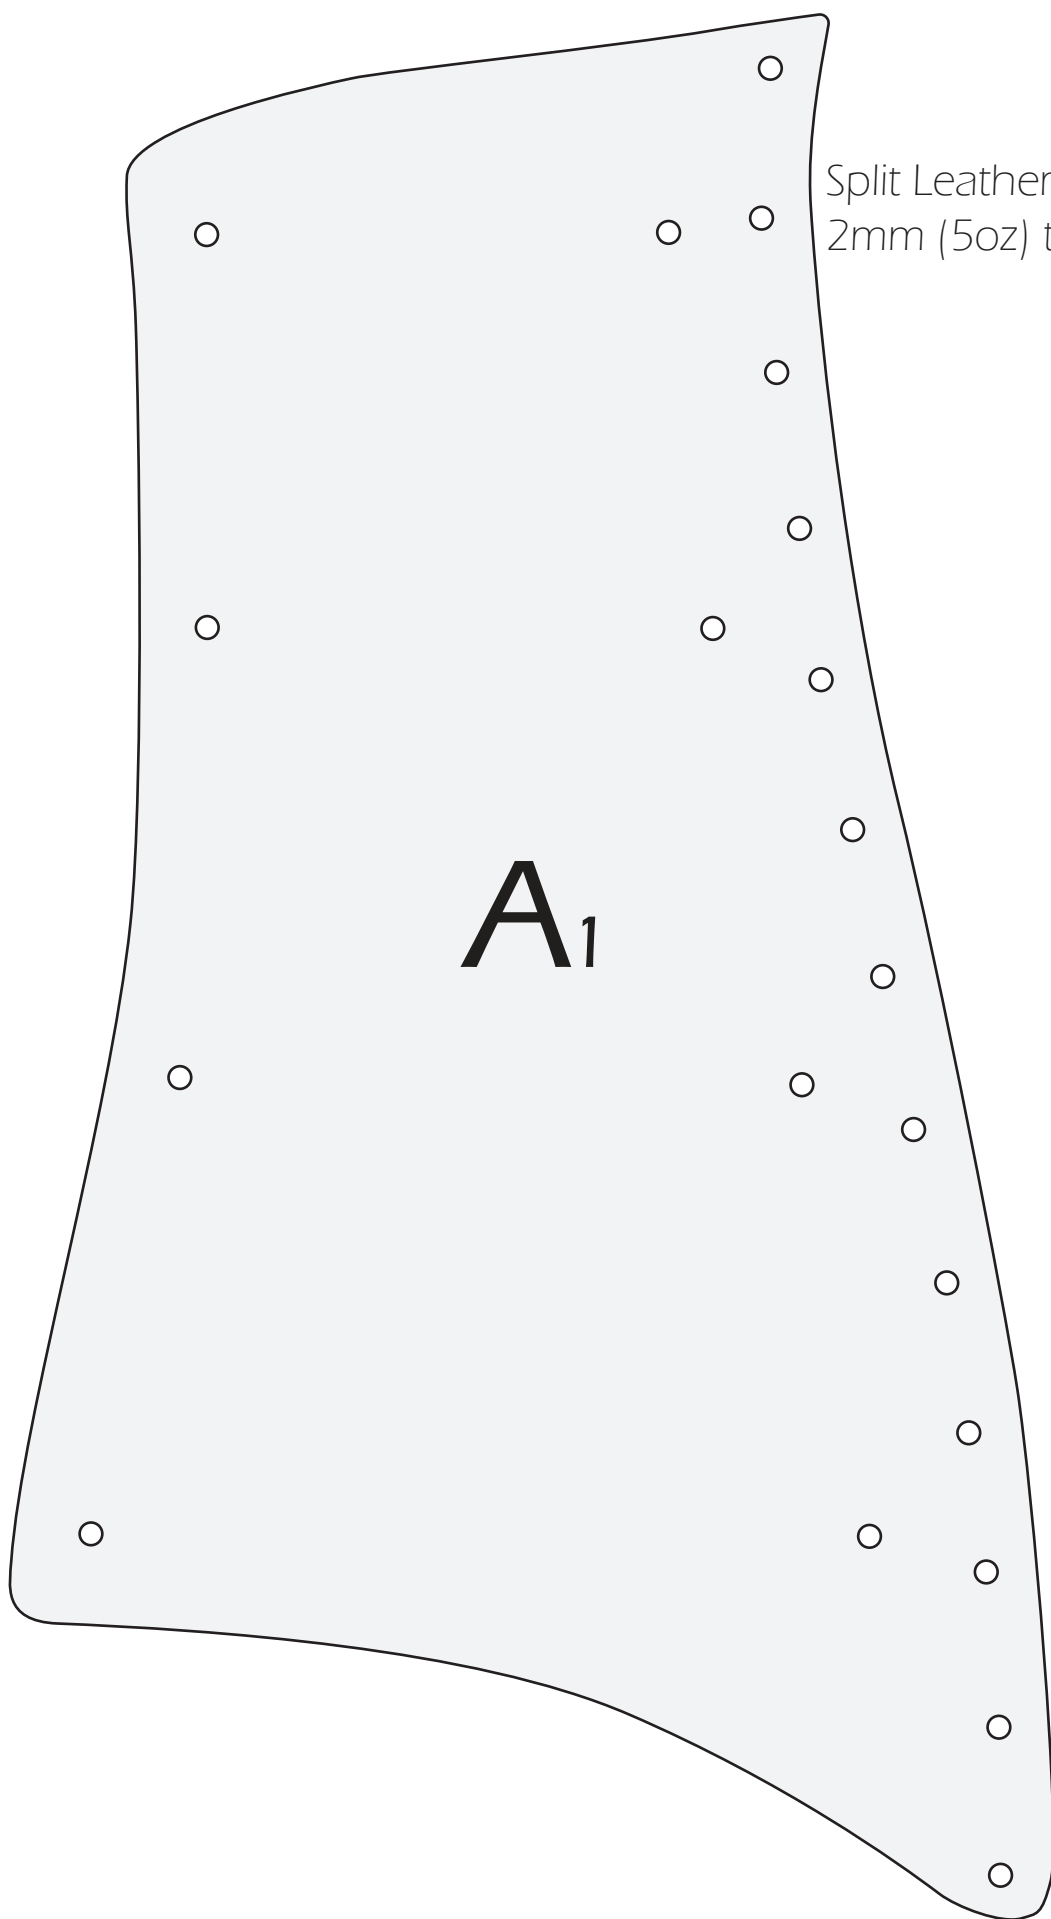

This is the pattern for one bracer for right hand. If you want the left bracer just reflect A, B, D and E pieces, simply by using it reverse.

I've used two different type of leather for making this gauntlet. 2mm (4 or 5 oz) thick split-leather for base structur (A and B pieces), and 2mm (5oz) thick veg-tan leather for other pieces. Obviously you can try all combination of material you want.

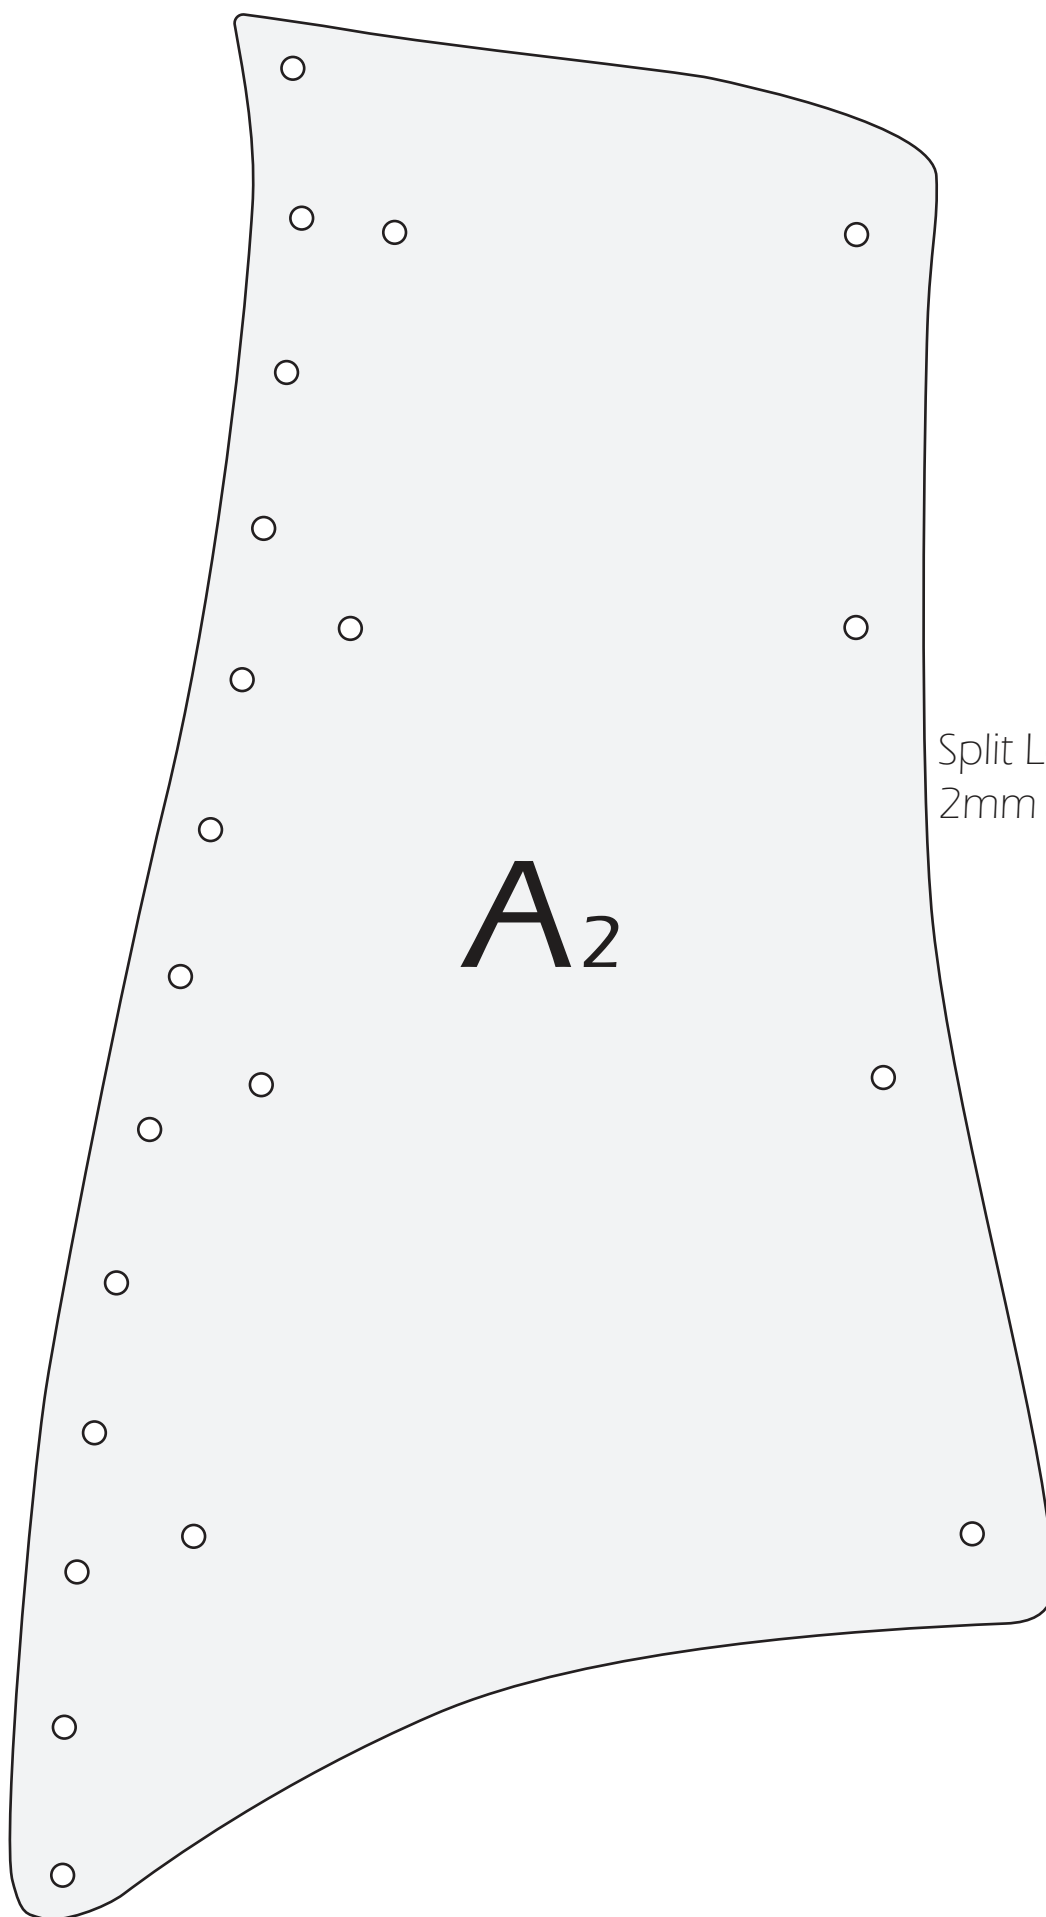

You can watch my craft video realization on my YouTube channel [Adhras Art](#) for some reference.
